[You Can Make It with the Help of God, You've Got to Make It](#) Dec 125 2021 This book, entitled *You Can Make It with the Help of God, You've Got to Make It*, is inspired from growing up in Savannah as a child. The many ordeals that I encountered strengthened my faith in God and brought me to the realization that I could make it through anything with the help of God. I learned from childhood to adulthood that there was nothing too hard for God. From sickness to unemployment and the loss of my parents and husband, these made me shed many tears to find that life was not easy, but knowing that God was with me to provide and protect me all the way to my senior years is amazing. When I moved to New York at nineteen years old and tried to make a living in a small apartment on Jefferson Avenue, I knew things had to change to make a better life for myself. Then at twenty-four years old, I met the man who would be a help to me in my attempt to become who God intended for me to become. At twenty-six years old, I married the man of my dreams, who became a great provider and cared for his children. I am a living witness that God can and will make a way for you when you trust him and know you can make it.

[Can I Help You?](#) Aug 01 2022 Many of us choose a retail sales environment for employment at some point in our lives. This book is for everyone who is either in, or is about to go into a job that involves direct interaction with customers. Retail can be a challenge at times, but it can also be rewarding. *Can I Help You?* is a book with an ironic title that explains how to take care of customers from the greeting all the way to the closing and follow-up. The beginning of the book makes it clear that the title phrase is not the best way to greet customers because of the prompting of the most common response, "No thanks, I'm just looking." Reading this will teach you, as a retail salesperson or associate, how to break the ice and welcome potential customers by using warmth, honesty, and good reputation-building methods. It will assist you in making those customers not only want to buy what you are selling but also become huge fans of your store or business. *Can I Help You?* is a fun and positive guide for regular people in regular sales jobs that want to succeed and feel good about their success while they are earning money at sales.

[Let's Fix Congress!: How You Can Help Change American Government](#) Mar 16 2021 Are you FED UP with Congress? For most Americans, the answer would be an emphatic, "Yes ". So why do members waltz back into office term after term? Even in so-called, change years? Are Americans really that dumb? ... Maybe not. In this book, a veteran activist and observer opens the hood of our political system, and reveals as never before

the innocent, but crucial errors made by the founders in designing our national legislature. You will learn how those flaws combined with human nature to produce an institution that now fails us so thoroughly, so often, it no longer seems capable of rational public policy. You will see how today's politics seduces and corrupts even the best and most well-meaning leaders, including someone you have trusted (and re-elected) for years. You will understand why our leaders refuse to act, and why reforms fail time and again. Finally, the author proposes a sensible plan, along with effective steps you can take, to truly fix Congress, once and for all.

Apr 28 2022 Fifty-seven-year-old Denise Jameson, an award-winning groomer who has been plying her trade for over thirty-five years, is the manager of Dog Wash, a grooming salon inside a Your Pets store. Denise works long hours, seven days a week, and her only desire is to see her favorite rock group, and favorite singer, in concert. The salon never has a dull moment with pets of all breeds and sizes, and the employees who help Denise groom the animals. There's Christine, a groomer who brings her talkative and, at times, trouble-making mynah bird, Diego, to work with her every day, and Stacy, the other groomer with two small children and a third one on the way. Working with the groomers is Kathy, a young grooming assistant who wants to be a singer. Her constant singing at the salon gets on the nerves of Bob, another grooming assistant who is hoping to get accepted at a school for veterinary medicine. Cheryl, a part-time grooming assistant, is content just to work with Denise. Their lives intersect with Tony Lovic, a homeless US Army veteran, who would do anything to be employed again. One day, hungry and desperate, Tony asks his patron saint, Francis of Assisi, to pray for him to find a job. Then Tony enters Denise's grooming salon, and Diego greets him by saying, "Dog Wash. Can I help you?" It's an action that will change more than one life for the better.

Help Your Boss Help You May 06 2020 Develop more productive habits in dealing with your manager. As a professional in the business world, you care about doing your job the right way. The quality of your work matters to you, both as a professional and as a person. The company you work for cares about making money and your boss is evaluated on that basis. Sometimes those goals overlap, but the different priorities mean conflict is inevitable. Take concrete steps to build a relationship with your manager that helps both sides succeed. Guide your manager to treat you as a vital member of the team who should be kept as happy and productive as possible. When your manager insists on a course of action you don't like, most employees feel they have only two options: you can swallow your objections, or you can leave. Neither option gets you what you want, which is for your manager to consider your interests when making decisions. Challenging your boss directly is risky, but if you understand what really matters to your manager, you can build a balanced relationship that works for both sides.

Provide timely "good enough" answers that satisfy the immediate need of the boss to move forward. Use a productive solution to the Iterated Prisoner's Dilemma to structure your interactions with management, going along when necessary and pushing back where appropriate, without threatening the loyalty relationship. Send the two most important messages to your boss: "I got this" and "I got your back," to prove your value to the boss and the organization. Analyze your manager's communication preferences so you can express your arguments in a way most likely to be heard and understood. Avoid key traps, like thinking of the boss as your friend or violating the chain of command unnecessarily.

**The Power of Computational Thinking** Apr 16 2021 From the team behind **Computer Science for Fun (cs4fn)**, **The Power of Computational Thinking** shows that learning to think can be fascinating fun. Can you become a computational thinker? Can machines have brains? Do computers really see and understand the world? Can games help us to study nature, save lives and design the future? Can you use computational thinking in your everyday activities? Yes, and this book shows you how. Computational thinking has changed the way we all live, work and play. It has changed the way science is done too; won wars, created whole new industries and saved lives. It is at the heart of computer programming and is a powerful approach to problem solving, with or without computers. It is so important that many countries now require that primary school children learn the skills. Professors Paul Curzon and Peter McOwan of Queen Mary University of London have written a unique and enjoyable introduction. They describe the elements of computational thinking — such as algorithmic thinking, decomposition, abstraction and pattern matching — in an entertaining and accessible way, using magic tricks, games and puzzles, as well as through real and challenging problems that computer scientists work on. This book gives you a head start in learning the skills needed for coding, and will improve your real life problem solving skills. It will help you design and evaluate new technologies, as well as understand both your own brain and the digital world in a deeper way. Request Inspection Copy

**You Can Help Your Country: English children's work during the Second World War** Oct 03 2022 First published in 2011, *You Can Help Your Country: English children's work during the Second World War* reveals the remarkable, hidden history of children as social agents who actively participated in a national effort during a period of crisis. In praise of the book, Hugh Cunningham, celebrated author of *The Invention of Childhood*, wrote: 'Think of children and the Second World War, and evacuation comes immediately to mind. Berry Mayall and Virginia Morrow have a different story to tell, one in which all the children of the nation were encouraged to contribute to the war effort. Many responded enthusiastically. Evidence from school magazines and oral testimony shows children digging for victory, working on farms, knitting comforts for the troops, collecting waste for recycling, running households. What lessons, the authors ask, does this wartime participation by children have for our own time? The answers are challenging.'
