

# June Gauteng 2015 Physical Science P2 Grade 11

Advances in Physical Ergonomics and Human Factors      Urban agriculture in the Gauteng City-Region's green infrastructure network      Sport Business in Leading Economies      The Changing Space Economy of City-Regions      Anatomy of a South African Karst Hydrosystem  
The Palgrave Handbook of Small Arms and Conflicts in Africa      Exploring the Consequences of the COVID-19 Pandemic      New Perspectives in Forensic Human Skeletal Identification      Ars Docendi et Scribendi: Essays in honour of Johan Scott      Politics and Governance of Basic Education      Africa's Competitiveness in the Global Economy  
Urban Mobilities in the Global South      International Sport Business Management      Historical trauma and memory      Childbirth, Vulnerability and Law      Urban Geomorphology  
ICEL2015-10th International Conference on e-Learning      Productivity Improvement in Manufacturing SMEs      Smart and Sustainable Cities and Buildings      The Rough Guide to South Africa, Lesotho & Swaziland      International Migrants in Johannesburg's Informal Economy  
The Fluvial Imagination      Carbon Footprint and the Industrial Life Cycle      The Palgrave Handbook of Prison Tourism      Immigrant Entrepreneurship in Cities      The Oxford Handbook of Criminology      Handbook of African Development      The Geography of South Africa      Agricultural Bioeconomy      Hominin Postcranial Remains from Sterkfontein, South Africa, 1936-1995      The Gender Based Violence Indicators Study      A Fossil History of Southern African Land Mammals      Governing the City      CCMA Urban Public Transport Systems  
Innovation in the Fourth Industrial Revolution Era      Teaching Comparative Education  
Rape Cultures and Survivors: An International Perspective [2 volumes]      Handbook of Research on Instructional Systems and Educational Technology      Economic Report on Africa 2017      Retail Worker Politics, Race and Consumption in South Africa

Thank you entirely much for downloading      June Gauteng 2015 Physical Science P2 Grade 11 .Most likely you have knowledge that, people have see numerous period for their favorite books bearing in mind this June Gauteng 2015 Physical Science P2 Grade 11 , but end in the works in harmful downloads.

Rather than enjoying a fine ebook considering a mug of coffee in the afternoon, on the other hand they juggled bearing in mind some harmful virus inside their computer. June Gauteng 2015 Physical Science P2 Grade 11 is easy to use in our digital library an online access to it is set as public fittingly you can download it instantly. Our digital library saves in combined countries, allowing you to get the most less latency era to download any of our books similar to this one. Merely said, the June Gauteng 2015 Physical Science P2 Grade 11 is universally compatible afterward any devices to read.

Rape Cultures and Survivors: An International Perspective [2 volumes]      Sep 26 2019 An in-depth treatment in two volumes of the historical and cultural contexts of rape and rape culture, this set discusses both victims and perpetrators internationally during war and peace times and examines the treatment of survivors. • Includes case studies on a variety of sexual assault survivors in environments ranging from college campuses to war zones • Integrates the expertise of contributors, who include both academics and activists on sexual violence in different parts of the world • Represents, through case studies, incidents of rape in countries from Africa to Europe and from Asia to the United States • Compares "rape cultures" across the world

The Gender Based Violence Indicators Study      Apr 01 2020 Over two thirds of women in Botswana (67%) have experienced some form of gender violence in their lifetime

including partner and non-partner violence. A smaller, but still high, proportion of men admit to perpetrating violence against women. Inspired by the Commonwealth Plan of Action on Gender and Development (2005-2015) and Southern African Development Community (SADC) Protocol on Gender and Development target of halving GBV by 2015, this research project provides the first comprehensive and comparative baseline assessment of the extent, effects and response to GBV in Botswana. A representative sample of 639 women and 590 men across Botswana completed questionnaires in their preferred local language on behaviour and experiences related to GBV. Researchers asked women about their experience of violence perpetrated by men while men were asked about their perpetration of violence against women.

A Fossil History of Southern African Land Mammals Mar 01 2020 A comprehensive reference on the taxonomy and distribution in time and space of all currently recognized southern African fossil mammals. This title is also available as Open Access on Cambridge Core.

Exploring the Consequences of the COVID-19 Pandemic Apr 25 2022 This unique and topical book assesses the impact of coronavirus disease (COVID-19) on a multitude of different aspects of human life. With chapters from researchers from a diverse selection of countries, this new volume, *Exploring the Consequences of the COVID-19 Pandemic: Social, Cultural, Economic, and Psychological Insights and Perspectives*, provides an insightful understanding of the challenges and impacts of COVID-19 on mental health, health care, gender issues, education, social institutions, and more. The diverse studies in this volume look at community responses and social challenges during COVID-19, covering topics such as social protection challenges and measures, the responsibility of the state to its citizens, and human rights and inhuman wrongs. The volume also examines health challenges and consequences of COVID-19, such as the impact on maternal and reproductive health, on mental health, the psychological effects of isolation, and more. The volume also includes studies on gender issues such as the plight of women migrant workers during the pandemic, feminist activism during quarantine, the impact on vulnerable groups of society, and how the pandemic affected interpersonal relations and behavior. The volume also takes a look at the roles of different organizations and professions and their reactions to the health crisis, including police, journalists and the media, and educators. The issues of the closure of schools and colleges and remote learning are also addressed. There is even a mathematical study of optimum budget allocation for social projects to control the COVID-19 pandemic. The enlightening volume provides an in-depth understanding of sociocultural responses to the COVID-19 and its consequences on society and will be of value to many sectors of society, including government and nongovernment organizations, policymakers and policy analysts, medical research organizations, schools and universities, healthcare practitioners, sociologists, and many others.

Advances in Physical Ergonomics and Human Factors Nov 01 2022 This book reports on the state of the art in physical ergonomics and is concerned with the design of products, process, services, and work systems to assure their productive, safe, and satisfying use by people. With focus on the human body's responses to physical and physiological work demands, repetitive strain injuries from repetition, vibration, force, and posture are the most common types of issues examined, along with their design implications. The book explores a wide range of topics in physical ergonomics, which includes the consequences of repetitive motion, materials handling, workplace safety, and usability in the use of portable devices, design, working postures, and the work environment. Mastering physical ergonomics and safety engineering concepts is fundamental to the creation of products and systems that people are able to use, as well as the avoidance of stresses and minimization of the risk of accidents. Based on the AHFE 2017 Conference on Physical Ergonomics and Human Factors, July 17-21, 2017, in Los Angeles, California, USA, this book provides readers with a comprehensive view of the current challenges in Physical Ergonomics,

which are a critical aspect in the design of any human-centered technological system, and factors influencing human performance.

Politics and Governance of Basic Education Jan 23 2022 This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. All over the world, economic inclusion has risen to the top of the development discourse. A well-performing education system is central to achieving inclusive development - but the challenge of improving educational outcomes has proven to be unexpectedly difficult. Access to education has increased, but quality remains low, with weaknesses in governance comprising an important part of the explanation. The Politics and Governance of Basic Education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education. Using the vivid example of South Africa, a country that had ambitious goals at the outset of its transition from apartheid to democracy, it explores how the interaction of politics and institutions affects educational outcomes. By examining lessons learned from how South Africa failed to achieve many of its goals, it constructs an innovative alternative strategy for making process, combining practical steps to achieve incremental gains to re-orient the system towards learning.

Economic Report on Africa 2017 Jul 25 2019 The 2017 Economic Report on Africa focuses on the linkages between industrialization and urbanization. Urbanization is one of Africa mega trends with profound implications for the social, economic, environmental dimensions of growth and transformation. Theory and experience demonstrate that industrialization and urbanization can be mutually reinforcing processes. It is therefore imperative to explore the linkages between urbanization and industrialization given the profound implications for structural transformation in Africa.

Immigrant Entrepreneurship in Cities Oct 08 2020 This book draws on evidence from global cities around the world and explores various dimensions of immigrant entrepreneurship and urban development. It provides a substantive contribution to the existing literature in several ways. First of all, it pursues a comparative approach, with case studies from both the global north and global south, so as to broaden the theoretical framework in this area especially as pertinent to emerging economies. Second, it covers multiple scales, from local community place-making, to urban contexts of reception, to transnational networks and connections. Third, it combines approaches and research methods from numerous disciplines, investigating entry dynamics, trends and patterns, business performance, challenges, and the impact of immigrant entrepreneurship in urban areas. Finally, it pays particular attention to current international experiences regarding urban policies on immigrant entrepreneurship. Given its scope, the book will be an enlightening read for anyone interested in immigration, entrepreneurship and urban development issues around the globe. As global cities around the world continue to attract both domestic migrants and international migrants to their bustling metropolises, immigrant entrepreneurship is emerging as an important urban phenomenon that calls for careful examination. From Chinatown in New York, to Silicon Valley in San Francisco, to Little Africa in Guangzhou, immigrant-owned businesses are not only changing the business landscape in their host communities, but also transforming the spatial, economic, social, and cultural dynamics of cities and regions.

Urban agriculture in the Gauteng City-Region's green infrastructure network 2022 The aim of this occasional paper is to gain a better understanding of urban agriculture within the green infrastructure network in the City of Johannesburg and to identify the range of ecosystem services that could be delivered when maintaining and investing in these assets. The analysis in this paper adopts a multi-method approach to (1) identify the interlinkages between urban agriculture and social, economic and environmental systems in the City of Johannesburg; (2) validate these

Sep 30

critical interlinkages with stakeholder input and ground-level experience of urban agriculture; and (3) visualise these interlinkages through a spatial analysis of food gardens in the City of Johannesburg.?

International Sport Business Management Oct 20 2021 This book showcases new research in sport business management around the world, offering a platform for the international exchange of ideas, best practices, and scientific inquiries in a globalized sport economy. Featuring work from leading sport management scholars from around the world – including North America, South America, Europe, Africa, and Asia – the book addresses a variety of global, regional, national, and community issues that are central to successful sport management. Combining both qualitative and quantitative studies, it explores key themes such as the emergent environment, managing change, organizational transformation, application of technology, marketing and promotion, and research protocols. New case studies cover topics such as entrepreneurship and innovation, sport broadcasting, digital technologies, youth and college sports, and the development of the sport management curriculum. International Sport Business Management is a fascinating reading for all students and scholars of sport management, sport business, and sport marketing, as well as for any professional working in the sport and leisure industries.

Agricultural Bioeconomy Jun 03 2020 Agricultural Bioeconomy: Innovation and Foresight in the Post-COVID Era presents recent advancements in biotechnology, exploring the optimal utilization of technologies to provide rapid and impactful economic recovery and sustainable resources in a future that will bear the mark of COVID-19. Understanding that there is a necessary balance between risk and reward, this book provides a foundational hypothesis as well as operational direction for addressing the commercialization and regulatory issues in a bio-based economy where agricultural output is at the core. By presenting adaptable practices to successfully establish and progress agri-based global bioeconomies, the book features a new paradigm focused on technological foresight and response to future risks and disasters. Key considerations include assessing and managing the urban bioeconomy, climate change mitigation, biofuels and bioenergy, GMOs, and employment generation. This book provides the solid next step toward future-proofing global economies using a combination of agricultural technologies and economic goals. Professionals and advanced students focused on the production of renewable biological resources and their conversion into value-added products including food, feed, bio-based products, and bioenergy will find this book useful. Addresses recent issues emerging in agro-based economies Empowers utilization of biotechnology to address worldwide ecological issues Presents adaptable, risk-management approaches to the adoption of socially and financially valuable agri-based technologies

Carbon Footprint and the Industrial Life Cycle Dec 10 2020 This book analyzes the relationship between large-scale industrial activity and the carbon footprint, and provides a theoretical framework and tools to calculate the carbon footprint of industrial activities at every stage of their life cycles, including urban-planning master plans, recycling activities, project and building stages as well as managing and manufacturing. Discussing the main preventative and corrective measures that can be utilized, it includes case studies, reports on technological developments and examples of successful policies to provide inspiration to readers. This book collects the contributions of authors from four continents, in order to analyze from as many as possible points of view and using many different approaches, the problem of sustainability in today's globalized world.

Urban Public Transport Systems Innovation in the Fourth Industrial Revolution Era Nov 28 2019 This book explores the physical and electronic integration of innovative urban public transport systems in seven metropolitan cities in South Africa and Zimbabwe in the era of the Fourth Industrial Revolution (Industry 4.0). The book also highlights how collaborative engagement can improve new transport projects in cities of the Global South. It demonstrates how integration concerns remain in

transport infrastructure projects in cities of the developing countries. Consequently, in order to strengthen the emerging and promising economies of these cities, there is a need for efficient, integrated, reliable and affordable public transport systems. The book explains that plans to deliver innovative transport systems in the Global South need to be well coordinated and managed to yield physically and electronically integrated systems.

Hominin Postcranial Remains from Sterkfontein, South Africa, 1936-1995

May 03 2020

The Sterkfontein hominin fossils generally are attributed to the species *Australopithecus africanus*, because most craniodental remains from the site are attributable to that taxon (reviews in Grine, 2013, 2019). However, there may be more than one hominin represented within the sample, even within the most productive Member, Member 4, and given the complex stratigraphy of the site and challenges in dating the deposits, this may or not may be the case. In general. Several studies have suggested the presence of two or more australopith taxon within the sample, each citing more morphological variation among the craniodental remains from Sterkfontein that can be attributed to a single species, at least compared to extant hominoid taxa (Kimbel and White, 1988; Clarke 1988, 1994; Lockwood, 1997, Lockwood and Tobias, 2002). However, it is notable that none of these studies agree on which specimens comprise the different possible taxa or groups, largely due to emphasis on different aspects of morphology varying among the fossils. The likely time depth of the Sterkfontein sample, even within Member 4, (see Chapter 3, this volume), may also complicate assessment of potential taxonomic heterogeneity at the site. None of the Sterkfontein postcranial fossils can be definitively associated with any craniodental specimens (but see Thackeray et al., 2002), and so cannot be related directly to any of the proposed taxonomic divisions within the sample. However, some studies have cited variation within the postcranial fossils that may also reflect taxonomic variation, although many studies to date have not tackled this question rigorously. Even though these suggestions have been made occasionally in the literature, no clear or consistent suggestion of two or more taxa has been apparent within the postcranial samples (reviewed in Grine 2019). Taxonomic variation is one of the key questions that each chapter in this volume addresses (summarized in Chapter 18, this volume)"--

Africa's Competitiveness in the Global Economy

Dec 22 2021

This book highlights the key issues, opportunities and challenges facing African firms, industries, cities and nations in their quest to compete successfully in the global economy. Exploring a topic which has grown in importance as Africa faces a period of subdued economic development, this edited collection takes a unique multi-disciplinary, multi-industry and multi-country approach. The authors provide insights into a broad range of issues, including competitiveness measurement and evaluation, sectoral competitiveness of declining and emerging industries, threats of the 'Dutch Disease,' and talent competitiveness. This timely book offers a response to the urgent need for the diversification of economies and the advancement of manufacturing in Africa, appealing to scholars of international business and economics.

Historical trauma and memory

Sep 18 2021

How wounds from a previous generation may weigh on children and grandchildren contain much of interest. Yet if we unpack the ghostly, the eerie, and the spectral in transgenerational hauntings, if we allow for the suffering or the disturbed to forge social links, such contacts may enable breaking into reconnections and afterlives. ... One only needs to think of the near epidemic of rape in South Africa to sense violent hypermasculinity erupting as madness, mediated by a history of brutal, racialised reduction. But it is also important to move beyond the brutalities and madness, to consider the individual and collective refigurations surfacing out of layers of catastrophe. Nancy Rose Hunt: Conference Keynote Address, "Beyond Trauma? Notes on a Word, a Frame, and a Diagnostic Category." Historical Trauma and Memory: Living with the Haunting Power

of the Past is based on essays presented at a conference with the same name which was held in Kigali, Rwanda in April 2019. The book gives readers front row seats as an interdisciplinary group of scholars from law, psychology, history, the arts, anthropology, theology, and philosophy address the complex matrix of the emotional legacies of historical trauma, cultural legacies, people interacting with their social and political environment, and the interplay of these factors in different post-conflict societies.

The Rough Guide to South Africa, Lesotho & Swaziland Mar 13 2021 The Rough Guide to South Africa is the definitive guide to one of the world's most fascinating and varied countries. Now available in PDF format. With accommodation listings that range from the most sumptuous safari lodges to cheap and cheerful backpacker lodges in stunning coastal positions, there's something for every budget. In-depth coverage on South Africa's many nature reserves is complemented by an illustrated wildlife guide, to help you make the most of your time on safari. Whether you want to explore the country's big sights - from the wilds of Kruger National Park and the best spots for whale watching to Cape Town's vibrant dining scene - or to uncover its many hidden gems, such as the dramatic desert scenery of the Richtersveld, The Rough Guide to South Africa is your indispensable travelling companion. Make the most of your time on Earth™ with The Rough Guide to South Africa.

Handbook of Research on Instructional Systems and Educational Technology Aug 25 2019 Incorporating new methods and approaches in learning environments is imperative to the development of education systems. By enhancing learning processes, education becomes more attainable at all levels. The Handbook of Research on Instructional Systems and Educational Technology is an essential reference source for the latest scholarly research on new models, trends, and data for solving instructional and learning challenges in education. Featuring extensive coverage on a wide range of topics such as distance education, online learning, and blended learning, this publication is ideally designed for academicians, practitioners, researchers, and students seeking current research on the latest improvements in instructional systems.

Handbook of African Development Aug 06 2020 This handbook presents an extensive new overview of African development - past, present and future. It addresses key core themes and topics that are pertinent to the continent's development - including sections on history, health and food, politics, economics, rural and urban development, and development policy and practice. The volume draws on the expertise of over 60 of the world's leading scholars to provide a detailed and up-to-date analysis of the key opportunities and challenges that confront Africa, and how such issues are being addressed. Arranged by key themes, the handbook provides not only a historical understanding of the past, but also political perspectives on the future. The chapters provide critically informed analyses of their topics by drawing upon the latest conceptual viewpoints and applied experiences in Africa in the form of case studies to offer a comprehensive examination of the opportunities, challenges, key debates and future prospects. This handbook is an invaluable state-of-the-art overview and reference concerning many different aspects of Africa's development, which will be of interest to academics in all fields of African studies, and also academics and students working in cognate disciplines such as development studies, geography, history, politics and economics.

The Geography of South Africa Jul 05 2020 This edited collection examines contemporary directions in geographical research on South Africa. It encompasses a cross section of selected themes of critical importance not only to the discipline of Geography in South Africa, but also of relevance to other areas of the Global South. All chapters are original contributions, providing a state of the art research baseline on key themes in physical, human and environmental geography, and in understanding the changing geographical landscapes of modern South Africa. These contributions set the scene for an understanding of the relationships between modern

South Africa and the wider contemporary world, including issues of sustainable development and growth in the Global South.

**Governing the City** Jan 29 2020 This report presents a typology of metropolitan governance arrangements observed across OECD countries and offers guidance for cities seeking for more effective co-ordination, with a closer look at two sectors that are strategic importance for urban growth: transport and spatial planning.

**Urban Geomorphology** Jul 17 2021 **Urban Geomorphology: Landforms and Processes in Cities** addresses the human impacts on landscapes through occupation (urbanization) and development as a contribution to anthropogenic geomorphology or "anthropogeomorphology." This includes a focus on land clearance, conservation issues, pollution, decay and erosion, urban climate, and anthropogenic climate change. These topics, as well as others, are considered to shed more light on the human transformation of natural landscapes and the environmental impacts and geomorphological hazards that environmental change can encompass. Its multidisciplinary approach is appropriate for audiences from a range of disciplines and professions, from geologists, conservationists, and land-use planners to architects and developers. **Urban Geomorphology** not only transcends disciplines, but also covers varied spatial-temporal frameworks and presents a diverse set of approaches and solutions to human impacts and geomorphological hazards within urban landscapes. Features a cross-disciplinary perspective, highlighting the importance of the geosciences to environmental science, engineering, and public policy Focuses on the built environment as the location of concentrated human impacts and change Provides an international scope, including case studies from urban areas around the world

**The Fluvial Imagination** Jan 11 2021 Landlocked and surrounded by South Africa on all sides, the mountain kingdom of Lesotho became the world's first "water-exporting country" when it signed a 1986 treaty with its powerful neighbor. An elaborate network of dams and tunnels now carries water to Johannesburg, the subcontinent's water-stressed economic epicenter. Hopes that receipts from water sales could improve Lesotho's fortunes, however, have clashed with fears that soil erosion from overgrazing livestock could fill its reservoirs with sediment. In this wide-ranging and deeply researched book, Colin Hoag shows how producing water commodities incites a fluvial imagination. Engineering water security for urban South Africa draws attention ever further into Lesotho's rural upstream catchments: from reservoirs to the soils and vegetation above them, and even to the social lives of herders at remote livestock posts. As we enter our planet's water-export era, Lesotho exposes the possibilities and perils ahead.

**New Perspectives in Forensic Human Skeletal Identification** Mar 25 2022 **New Perspectives in Forensic Human Skeletal Identification** provides a comprehensive and up-to-date perspective on human identification methods in forensic anthropology. Divided into four distinct sections, the chapters will reflect recent advances in human skeletal identification, including statistical and morphometric methods for assessing the biological profile (sex, age, ancestry, stature), biochemical methods of identification (DNA analysis, stable isotope analysis, bomb curve analysis), and use of comparative radiography. The final section of this book highlights advances in human identification techniques that are being applied to international populations and disaster victims. The contributing authors represent established experts in forensic anthropology and closely related fields. **New Perspectives in Forensic Human Skeletal Identification** will be an essential resource for researchers, practitioners, and advanced students interested in state-of-the-art methods for human identification. A comprehensive and up-to-date volume on human identification methods in forensic anthropology Focuses on recent advances such as statistical and morphometric methods for assessing the biological profile, biochemical methods of identification and use of comparative radiography Includes an entire section on human identification techniques being applied to international

populations and disaster victims

The Oxford Handbook of Criminology Sep 06 2020 Beginning with the history of criminology this updated and revised edition deals with topics as diverse as policing, substance abuse, juvenile crime, statistics, prisons, victims, and organised crime in Britain.

Urban Mobilities in the Global South Nov 20 2021 The book considers urban mobilities and immobilities in the Global South through an exploration of the theoretical and methodological entry points that can be used to further the agenda of transport planning. Transport system improvements can (and do) have complex and unequal impacts on different sectors of society. Conventional approaches to analysing travel demand and transport system performance developed in the 'Global North' are typically ill-equipped to identify and understand the complexities and inequities in urban areas of the Global South. Using case studies from urban Africa and Asia, the book addresses the need to understand the 'lived world' of mobilities and use this knowledge to address issues that are central to our urban existence in the 21st century.

ICEL2015-10th International Conference on e-Learning Jun 15 2021 These proceedings represent the work of researchers participating in the 10th International Conference on e-Learning (ICEL 2015) which is being hosted this year by the College of the Bahamas, Nassau on the 25-26 June 2015. ICEL is a recognised event on the International research conferences calendar and provides a valuable platform for individuals to present their research findings, display their work in progress and discuss conceptual advances in the area of e-Learning. It provides an important opportunity for researchers and managers to come together with peers to share their experiences of using the varied and expanding range of e-Learning available to them. With an initial submission of 91 abstracts, after the double blind, peer review process there are 41 academic Research papers and 2 PhD papers Research papers published in these Conference Proceedings. These papers come from some many different countries including: Australia, Belgium, Brazil, Canada, China, Germany, Greece, Hong Kong, Malaysia, Portugal, Republic of Macedonia, Romania, Slovakia, South Africa, Sweden, United Arab Emirates, UK and the USA. A selection of the best papers – those agreed by a panel of reviewers and the editor will be published in a conference edition of EJEL (the Electronic Journal of e-Learning [www.ejel.com](http://www.ejel.com)). These will be chosen for their quality of writing and relevance to the Journal's objective of publishing papers that offer new insights or practical help into the application e-Learning.

International Migrants in Johannesburg's Informal Economy Feb 09 2021 This report provides a rich view of the activities of migrant entrepreneurs in the informal economy of Johannesburg. It is hoped that the information will facilitate understanding of the informal sector and its potential, and not just in the context of migrant entrepreneurs. The informal economy plays a significant role in the entrepreneurial landscape of the City of Johannesburg and is patronized by most of the city's residents. The research presented here challenges commonly held opinions about migrant entrepreneurs in the City of Johannesburg and shows that they do not dominate the informal economy, which remains largely in the hands of South Africans. In late 2013, the City, through Operation Clean Sweep, removed up to 8,000 traders from the city's streets. As this and recent xenophobic attacks demonstrate, Johannesburg can be a hostile place in which to operate a business as an informal economy migrant entrepreneur. Instead of trying to sweep the streets clean of these small businesses, government at national, provincial and city levels should develop policies to grow the SMME economy, develop township economies, and manage the informal economy and street trading. They need to incorporate the businesses owned by migrant entrepreneurs, rather than exclude and demonize them. These businesses make an invaluable contribution to Johannesburg's economy despite operating in a non-enabling political and policy environment.

Retail Worker Politics, Race and Consumption in South Africa Jun 23 2019 This book

argues that we need to focus attention on the ways that workers themselves have invested subjectively in what it means to be a worker. By doing so, we gain an explanation that moves us beyond the economic decisions made by actors, the institutional constraints faced by trade unions, or the power of the state to interpellate subjects. These more common explanations make workers and their politics visible only as a symptom of external conditions, a response to deregulated markets or a product of state recognition. Instead – through a history of retailing as a site of nation and belonging, changing legal regimes, and articulations of race, class and gender in the constitution of political subjects from the 1930s to present-day Wal-Mart – this book presents the experiences and subjectivities of workers themselves to show that the collective political subject ‘workers’ (abasebenzi) is both a durable and malleable political category. From white to black women’s labour, the forms of precariousness have changed within retailing in South Africa. Workers’ struggles in different times have in turn resolved some dilemmas and by other turn generated new categories and conditions of precariousness, all the while explaining enduring attachments to labour politics.

Sport Business in Leading Economies Aug 30 2022 From a renowned group of international scholars, this new work examines how leading economic countries use sport business to drive and further economic development by raising brand awareness (country as a brand), transforming lagging communities, and enhancing travel and tourism in the country.

Productivity Improvement in Manufacturing SMEs May 15 2021 This book focuses on the application of workstudy in productivity of manufacturing SMEs locally and abroad and also explores various industrial problems which face manufacturing SMEs in developing and underdeveloped countries in the rest of the world. Low productivity is currently a serious challenge facing manufacturing SMEs, where these SMEs are operating below expected production output levels which makes it difficult for them to compete in the global market. SMEs are the engine drivers of economic growth, one of which is manufacturing. The challenge is that government from various countries in developing and underdeveloped countries, mandated agencies in their respective areas, to ensure that there is economic progress for these SMEs, but productivity remains low in the manufacturing SMEs. When SMEs do not perform well, productivity of manufacturing SMEs declines and unemployment increases. Thus, an increase in unemployment results in a drop of GDP in the country and can become a global and economic crisis. This book describes a process which enables the reader to use effective knowledge that addresses problems facing the productivity of manufacturing SMEs such as work study tools and case studies and provides solutions and applications to improve the running of the manufacturing SMEs in growing their productivity.

The Palgrave Handbook of Prison Tourism Nov 08 2020 This extensive Handbook addresses a range of contemporary issues related to Prison Tourism across the world. It is divided into seven sections: Ethics, Human Rights and Penal Spectatorship; Carceral Retasking, Curation and Commodification of Punishment; Meanings of Prison Life and Representations of Punishment in Tourism Sites; Death and Torture in Prison Museums; Colonialism, Relics of Empire and Prison Museums; Tourism and Operational Prisons; and Visitor Consumption and Experiences of Prison Tourism. The Handbook explores global debates within the field of Prison Tourism inquiry; spanning a diverse range of topics from political imprisonment and persecution in Taiwan to interpretive programming in Alcatraz, and the representation of incarcerated Indigenous peoples to prison graffiti. This Handbook is the first to present a thorough examination of Prison Tourism that is truly global in scope. With contributions from both well-renowned scholars and up-and-coming researchers in the field, from a wide variety of disciplines, the Handbook comprises an international collection at the cutting edge of Prison Tourism studies. Students and teachers from

disciplines ranging from Criminology to Cultural Studies will find the text invaluable as the definitive work in the field of Prison Tourism.

Anatomy of a South African Karst Hydrosystem Jun 27 2022 This book combines the results of the research activities in the assessment of water resources environment and an integrated water resource monitoring program to support preservation efforts of the aquatic environment of the Cradle of Humankind (COH), World Heritage Sites. A poor understanding of the surface and groundwater resources of the COH property has precipitated often alarmist reporting in the media regarding the negative impacts associated with various sources of poor quality water. The most notable of these is the acid mine drainage threat to karst ecosystems and fossil sites across the property. These circumstances have generated wide and considerable concern for the preservation of the UNESCO-inscribed fossil sites and integrity of the water resources of the property.

The Palgrave Handbook of Small Arms and Conflicts in Africa May 27 2022 This handbook provides critical analyses of the theory and practices of small arms proliferation and its impact on conflicts and organized violence in Africa. It examines the terrains, institutions, factors and actors that drive armed conflict and arms proliferation, and further explores the nature, scope, and dynamics of conflicts across the continent, as well as the extent to which these conflicts are exacerbated by the proliferation of small arms. The volume features rich analyses by contributors who are acquainted with, and widely experienced in, the formal and informal structures of arms proliferation and control, and their repercussions on violence, instability and insecurity across Africa. The chapters dissect the challenges of small arms and light weapons in Africa with a view to understanding roots causes and drivers, and generating a fresh body of analyses that adds value to the existing conversation on conflict management and peacebuilding in Africa. With contributions from scholars, development practitioners, defence and security professionals and civil society activists, the handbook seeks to serve as a reference for students, researchers, and policy makers on small arms proliferation, control and regulation; defence and security practitioners; and those involved in countering violence and managing conflicts in Africa.

CCMA Dec 30 2019 The fourth edition of this established and handy guide to the Rules of the CCMA reproduces the newly published Guidelines on Misconduct Arbitrations in terms of the Labour Relations Act, updates the law and commentary on the Rules, and also includes a useful Practical Guide for an Unfair Dismissal Claim in the CCMA. Furthermore, the book provides valuable insurance against tripping up on technicalities. It explains the Rules of the CCMA in non-legal language. Each Rule is fully reproduced and then explained in non-legal language, in line with the original aim of the CCMA - making it accessible to the layperson and freeing it from the legal technicalities that bedevilled the old Industrial Court. The book is intended both for commissioners and professionals, as well as for the non-professional user of the CCMA, as a guideline on how to tread in what is often perceived as the province of lawyers. It is therefore not a technical legal text, with references and citations.

Childbirth, Vulnerability and Law Aug 18 2021 This book is inspired by a statement released by the World Health Organization directed at preventing and eliminating disrespectful and abusive treatment during facility-based childbirth. Exploring the nature of vulnerability during childbirth, and the factors which make childbirth a site for violence and control, the book looks at the role of law in the regulation of professional intervention in childbirth. The WHO statement and other published work on 'mistreatment', 'obstetric violence', 'birth trauma', 'birth rape', and 'dehumanised care' all point to the presence of vulnerability, violence, and control in childbirth. This collected edition explores these issues in the experience of those giving birth, and for those providing obstetric services. It further offers insights regarding legal avenues of redress in the context of this emerging area of

concern. Using violence, vulnerability, and control as a lens through which to consider multiple facets of the law, the book brings together innovative research from an interdisciplinary selection of authors. The book will appeal to scholars of law and legal academics, specifically in relation to tort, criminal law, medical law, and human rights. It will also be of interest to postgraduate scholars of medical ethics and those concerned with gender studies more broadly.

The Changing Space Economy of City-Regions Jul 29 2022 This book addresses the South African Space Economy and its stark disparities and dualisms through an assessment of the Gauteng City-Region – the largest economic agglomeration in the country and on a continent bedevilled by a myriad of development challenges. The book's focus on understanding the overall character of Gauteng City-Region's Space Economy – through data mining/analysis and mapping – comprehensively supplements the Space Economy literature on the region. It covers the disparities exacerbated by an overlay of apartheid planning ideology and top-down regional development based on selective encouragement of manufacturing investments in growth points or poles and how implementation of past policies intended to cure these disparities have yielded mixed results. This book further offers the Gauteng City-Region as a microcosm of the national economy in the form of evident significant place-based variations in the intensity and character of economic structure that on the one hand enjoys massive agglomeration economies, while on the other, has high levels of poverty and large numbers of people living below the Minimum Living Level. This book should appeal to urban studies specialists, economists and development studies researchers in the Global South.

Smart and Sustainable Cities and Buildings Apr 13 2021 This book brings together the papers presented at the Smart and Sustainable Built Environments Conference, 2018 (SASBE). This latest research falls into two tracks: smart and sustainable design and planning cities; and the technicalities of smart and sustainable buildings. The growth of smart cities is evident, but not always linked to sustainability. This book gives an overview of the latest academic developments in increasing the smartness and sustainability of our cities and buildings. Aspects such as inclusivity, smart cities, place and space, the resilient city, urbanity and urban ecology are prominently featured in the design and planning part of the book; while energy, educational buildings, comfort, building design, construction and performance form the sub-themes of the technical part of the book. This book will appeal to urban designers, architects, urban planners, smart city designers and sustainable building experts.

Ars Docendi et Scribendi: Essays in honour of Johan Scott Feb 21 2022 Ars Docendi et Scribendi: Essays in honour of Johan Scott Edited by the Faculty of Law, University of Pretoria ISBN: 978-1-920538-76-7 Pages: 243 Print version: Available Electronic version: Free PDF available About the publication "Festschrift" - a collection of articles by the colleagues, former students, etc. of a noted scholar, published in his or her honour. During his travels abroad Johan Scott built up a wide network of international scholars who over time became a valued circle of friends, many of whom spent enriching moments in his company and who contributed to this Festschrift. Contributors were requested to write in their home language, and furthermore to submit their contributions for publication in other journals worldwide, specifically accrediting this Festschrift in order to expand access worldwide to the wonderful contributions written in honour of our colleague. Great scholars like Johan never retire. They might go fishing more than they could in the past, but his calling of being a true teacher will never fade. Scholars like Johan understand that the present and the future are inevitably linked to the past, and although education depends on talent and performance, it should always serve to build character and a vision for future generations. Teaching Comparative Education Oct 27 2019 With chapter contributions from seminal scholars in the field of comparative and international education (CIE), this book examines the ways in which comparative education is being taught, or advocated for, in teacher education within higher education institutions worldwide. A particular concern raised by the authors - in locations as diverse as Germany, Singapore, the United Kingdom, and the United States - is the utilitarian approach in teacher education, where that which is valued is that which is measurable. The implications for what and how CIE should be taught is examined in light of the ideological, sociocultural, political, and economic trends influencing education worldwide. The main questions posed in the book include: What are the challenges and opportunities for CIE, and its practice, now and in the future?
