Who Wrote the Bible? Oct 03 2022 A much anticipated reissue of *Who Wrote the Bible?*—the contemporary classic the New York Times Book Review called “a thought-provoking [and] perceptive guide” that identifies the individual writers of the Pentateuch and explains what they can teach us about the origins of the Bible. For thousands of years, the prophet Moses was regarded as the sole author of the first five books of the Bible, known as the Pentateuch. According to tradition, Moses was divinely directed to write down foundational events in the history of the world: the creation of humans, the worldwide flood, the laws as they were handed down at Mt. Sinai, and the cycle of Israel’s enslavement and liberation from Egypt. However, these stories—and their frequent discrepancies—provoke questions: why does the first chapter in Genesis say that man and woman were made in God’s image, while the second says that woman was made from man’s rib? Why does one account of the flood say it lasted forty days, while another records no less than one hundred? And why do some stories reflect the history of southern Judah, while others seem sourced from northern Israel? Originally published in 1987, Richard Friedman’s *Who Wrote the Bible?* joins a host of modern scholars who show that the Pentateuch was written by at least four distinct voices—separated by borders, political alliances, and particular moments in history—then connected by brilliant editors. Rather than cast doubt onto the legitimacy of the Bible, Friedman uses these divergent accounts to illuminate a text that was written by real people. Friedman’s seminal and bestselling text is a comprehensive and authoritative answer to the question: just who exactly wrote the Bible?

The Africans Sep 02 2022 During the four years he spent in black Africa as the bureau chief for the Los Angeles Times, David Lamb traveled through almost every country south of the Sahara, logging more than 300,000 miles. He talked to presidents and guerrilla leaders, university professors and witch doctors. He bounced from wars to coups oceans apart, catching midnight flights to little-known countries where supposedly decent people were doing unspeakable things to one another. In the tradition of John Gunther's *Inside Africa*, *The Africans* is an extraordinary combination of analysis and adventure. Part travelogue, part contemporary history, it is a portrait of a continent that sometimes seems hell-bent on destroying itself, and of people who are as courageous as they are long-suffering.

We are All Africans Jul 28 2019 "We Are All Africans" challenges the teachings of the Judeo-Christian-Islamic religions from an African perspective. Readers of the Christian, Jewish

and Islamic faith will discover an honest evaluation of their religious teachings and the effects on society. The book blends history, science and experiential reality to challenge the claims of the Bible and Koran as books written under inspiration by Gods - Yahweh, Trinity and Allah. It dispels the long-held belief that all men descended from Adam six thousand years ago and includes Africans as his descendants. This book asserts that Africans were on the continent hundreds of thousands of years, if not millions, before Adam emerged and they could not be his descendants. It claims that Adam, if he existed at all, was a descendant of Africans. Much more than a compelling intellectual exercise, this book evaluates the Bible's stories, especially the pieces written by Moses which form the foundation of these religions. When compared to discoveries of modern science, common observations of nature and every day experience, the Bible's stories are found wanting, devoid of substance, fact and truth. It examines the story of how the whole universe and life on earth were created in six 24-hour days, only six thousand years ago; Adam and Eve being the ancestors of all mankind who lived six thousand years ago in Iraq; Noah's global deluge; crossing of the Red Sea; the destruction of homosexuals in Sodom and Gomorrah, the Deity and pre-earth existence of Jesus in heaven and many others. It discusses how Yahweh was created by Moses, Trinity by Romans and Allah by Mohammed as man-made Gods in contrast to the real Creator of the universe. It concludes that since the fossil record, radiometric dating, tracing of Y-Chromosome and Mitochondrial DNA, and melanin establish Africa as the origin of man hundreds of thousands if not millions of years ago, then Africans and their descendants did not and could not descend from Adam and inherit his sin. Therefore they do not need Jesus as a savior or Moses and Mohammed as their prophets or intermediaries for redemption of sin.

African Town Aug 21 2021 Chronicling the story of the last Africans brought illegally to America in 1860, African Town is a powerful and stunning novel-in-verse. In 1860, long after the United States outlawed the importation of enslaved laborers, 110 men, women and children from Benin and Nigeria were captured and brought to Mobile, Alabama aboard a ship called Clotilda. Their journey includes the savage Middle Passage and being hidden in the swamplands along the Alabama River before being secretly parceled out to various plantations, where they made desperate attempts to maintain both their culture and also fit into the place of captivity to which they'd been delivered. At the end of the Civil War, the survivors created a community for themselves they called African Town, which still exists to this day. Told in 14 distinct voices, including that of the ship that brought them to the American shores and the founder of African Town, this powerfully affecting historical novel-in-verse recreates a pivotal moment in US and world history, the impacts of which we still feel today.

The Shadow of the Sun Aug 28 2019 A moving portrait of Africa from Poland's most celebrated foreign correspondent - a masterpiece from a modern master. Famous for being in the wrong places at just the right times, Ryszard Kapuscinski arrived in Africa in 1957, at the beginning of the end of colonial rule - the "sometimes dramatic and painful, sometimes enjoyable and jubilant" rebirth of a continent. The Shadow of the Sun sums up the author's experiences ("the record of a 40-year marriage") in this place that became the central obsession of his remarkable career. From the hopeful years of independence through the bloody disintegration of places like Nigeria, Rwanda and Angola, Kapuscinski recounts great social and political changes through the prism of the ordinary African. He examines the rough-and-ready physical world and identifies the true geography of Africa: a little-understood spiritual universe, an African way of being. He looks also at Africa in the wake of two epoch-making changes: the arrival of AIDS and the definitive departure of the white man. Kapuscinski's rare humanity invests his subjects with a grandeur and a dignity unmatched by any other writer on the Third World, and his unique ability to discern the universal in the particular has never been more powerfully displayed than in this work.

No Longer at Ease Oct 11 2020 Obi Okonkwo is an idealistic young man who, thanks to the privileges of an education in Britain, has now returned to Nigeria for a job in the civil service. However in his new role he finds that the way of government seems to be backhanders and corruption. Obi manages to resist the bribes that are offered to him, but when he falls in love with an unsuitable girl - to the disapproval of his parents - he sinks further into emotional and financial turmoil. The lure of easy money becomes harder to refuse, and Obi becomes caught in a trap he cannot escape. Showing a man lost in cultural limbo, and a Nigeria entering a new age of disillusionment, No Longer at Ease concludes Achebe's remarkable trilogy charting three generations of an African community under the impact of colonialism, the first two volumes of which are Things Fall Apart and Arrow of God.

Born in Blackness: Africa, Africans, and the Making of the Modern World, 1471 to the Second World War May 30 2022 Revealing the central yet intentionally obliterated role

of Africa in the creation of modernity, *Born in Blackness* vitally reframes our understanding of world history. Traditional accounts of the making of the modern world afford a place of primacy to European history. Some credit the fifteenth-century Age of Discovery and the maritime connection it established between West and East; others the accidental unearthing of the “New World.” Still others point to the development of the scientific method, or the spread of Judeo-Christian beliefs; and so on, ad infinitum. The history of Africa, by contrast, has long been relegated to the remote outskirts of our global story. What if, instead, we put Africa and Africans at the very center of our thinking about the origins of modernity? In a sweeping narrative spanning more than six centuries, Howard W. French does just that, for *Born in Blackness* vitally reframes the story of medieval and emerging Africa, demonstrating how the economic ascendancy of Europe, the anchoring of democracy in the West, and the fulfillment of so-called Enlightenment ideals all grew out of Europe’s dehumanizing engagement with the “dark” continent. In fact, French reveals, the first impetus for the Age of Discovery was not—as we are so often told, even today—Europe’s yearning for ties with Asia, but rather its centuries-old desire to forge a trade in gold with legendarily rich Black societies sequestered away in the heart of West Africa. Creating a historical narrative that begins with the commencement of commercial relations between Portugal and Africa in the fifteenth century and ends with the onset of World War II, *Born in Blackness* interweaves precise historical detail with poignant, personal reportage. In so doing, it dramatically retrieves the lives of major African historical figures, from the unimaginably rich medieval emperors who traded with the Near East and beyond, to the Kongo sovereigns who heroically battled seventeenth-century European powers, to the ex-slaves who liberated Haitians from bondage and profoundly altered the course of American history. While French cogently demonstrates the centrality of Africa to the rise of the modern world, *Born in Blackness* becomes, at the same time, a far more significant narrative, one that reveals a long-concealed history of trivialization and, more often, elision in depictions of African history throughout the last five hundred years. As French shows, the achievements of sovereign African nations and their now-far-flung peoples have time and again been etiolated and deliberately erased from modern history. As the West ascended, their stories—siloes and piecemeal—were swept into secluded corners, thus setting the stage for the hagiographic “rise of the West” theories that have endured to this day. “Capacious and compelling” (Laurent Dubois), *Born in Blackness* is epic history on the grand scale. In the lofty tradition of bold, revisionist narratives, it reframes the story of gold and tobacco, sugar and cotton—and of the greatest “commodity” of them all, the twelve million people who were brought in chains from Africa to the “New World,” whose reclaimed lives shed a harsh light on our present world.

Black Leopard, Red Wolf Aug 09 2020 "A fantasy world as well-realized as anything Tolkien made." —Neil Gaiman "Gripping, action-packed....The literary equivalent of a Marvel Comics universe." —Michiko Kakutani, *The New York Times* In this epic, internationally bestselling novel from Marlon James, the Man Booker Prize-winning author of *A Brief History of Seven Killings*, myth, fantasy and history merge in the stunning story of a mercenary's quest to find a missing child. Tracker is known far and wide for his skills as a hunter: "He has a nose," people say. Hired to find a mysterious boy who has disappeared, Tracker breaks his own rule of always working alone when he finds himself part of a group assembled to search for the boy. The band is a hodgepodge, full of unusual characters with secrets of their own, including a shape-shifting man-animal known as the Leopard. As Tracker follows the boy's scent, he and the band are set upon by creatures intent on destroying them. As he fights for survival, Tracker starts to wonder: Who, really, is this boy? Why has he been missing for so long? Why do so many people want to keep the boy from being found? And perhaps most important of all: Who is telling the truth, and who is lying? Drawing from African history and mythology and his own rich imagination, Marlon James has written a saga of breathtaking adventure that's also an ambitious, involving read. Defying categorization and full of unforgettable characters, *Black Leopard, Red Wolf* is both surprising and profound as it explores the fundamentals of truth, the limits of power, the excesses of ambition, and our need to understand them all.

The Rift Mar 04 2020 A vivid, powerful, and controversial look at how the world gets Africa wrong, and how a resurgent Africa is forcing it to think again. Africa has long been misunderstood -- and abused -- by outsiders. Correspondent Alex Perry traveled the continent for most of a decade, meeting with entrepreneurs and warlords, professors and cocaine smugglers, presidents and jihadis. Beginning with a devastating investigation into a largely unreported war crime in 2011, when the US and the major aid agencies helped cause a famine in which 250,000 Somalis died—he finds Africa at a moment of furious self-assertion. To finally win their freedom, Africans must confront three last false prophets—Islamists, dictators and aid workers—who would keep them in their bonds. Beautifully written, intimately reported, and sure to spark debate, *The Rift* passionately argues that a changing Africa revolutionizes our ideas of it, and of ourselves.

African Nov 23 2021 A beautiful children's picture book featuring the lyrics of Peter Tosh's global classic celebrating children of African descent. So don't care where you come from As long as you're a black man, you're an African No mind your nationality You have got the identity of an African *African* is a children's book featuring lyrics by Peter Tosh and illustrations by Jamaican artist Rachel Moss. The song "African" by Peter Tosh was originally released in 1977 on his second solo record, *Equal Rights*. He wrote the song during a time of civil unrest in Jamaica as a reminder to all black people that they were part of the same community. The album is considered one of the most influential reggae works of all time. A key song from the classic 1970s era of reggae Peter Tosh was one of the founding members of the iconic reggae group the Wailers "The joyful illustrations depict young and older black people of various colors, with many different hairstyles and wearing an array of clothing styles, playing, riding, dancing, and walking...The dynamic art and text work together to form a loving ode to belonging for black people of the diaspora." --Kirkus Reviews "[A] survey of Tosh's repertoire reminds us that his best works were distinctive and

impactful. When the Wailers were first starting their careers at Studio One, Tosh voiced boastful classics...When the Wailers launched their own label in 1968, Tosh became the Stepping Razor, adapting a song written by the Wailers' harmony coach, Joe Higgs, and when the trio began working with visionary producer Lee 'Scratch' Perry, he recorded '400 Years,' one of the most moving explorations of the historical injustices of slavery and its lingering aftermath...His Legalize It album was far ahead of its time in demanding the decriminalization of marijuana in 1975, while Equal Rights reminded that peace will never come without justice...[He was] one of reggae's most fiery and controversial performers, whose work remains relevant." --Guardian "Tosh's first two solo records, Legalize It and Equal Rights, are not just two of the best reggae records ever, but also two of the finest records of the '70s, period. They were inventive and deeply catchy records full of songs that could be as playful as they were defiant. Peter Tosh was always outspoken, always the rebel, but it was the way he said things--that honeyed voice, those brilliant and subtly intricate compositions--that set him apart." --PopMatters

When Africa Awakes Sep 09 2020 Hubert Henry Harrison's *When Africa Awakes* is an important collection of essays and articles written by one of America's great, but seldom noted intellectuals. The collection, originally published in 1920, provides valuable insight on the PanAfrican world of Harrison's time and sheds considerable light on the state of the contemporary African world. Harrison uses the term Africa to signify the unity of Black people throughout the world. In his lifetime, Harrison (1883-1927) worked diligently toward the unity and enlightenment of his community. A labor leader, editor, teacher, and author, Harrison is at once the contemporary social critic and wise prophet speaking to us across generations. In the article "The New Politics," Harrison, who was an advocate for revolutionary change, calls for a political agenda with an independent Black political thrust. He provides a clear and early call for Blacks to work in their own political interest. "

The Next Africa Dec 13 2020 *The Next Africa*, an Axiom Best Business Book Award winner, will change the way people think about the continent. The old narrative of an Africa disconnected from the global economy, depicted by conflict or corruption, and heavily dependent on outside donors is fading. A wave of transformation driven by business, modernization, and a new cadre of remarkably talented Africans is thrusting the continent from the world's margins to the global mainstream. In the coming decades the magnitude of Africa's markets and rising influence of its people will intersect with other key trends to shape a new era, one in which Africa's progress finally overshadows its challenges, transforming an emerging continent into a global powerhouse. *The Next Africa* captures this story. Authors Jake Bright and Aubrey Hruby pair their collective decades of Africa experience with several years of direct research and interviews. Packed with profiles; personal stories, research and analysis, *The Next Africa* is a paradigm-shifting guide to the events, trends, and people reshaping Africa's relationship to the world. Bright and Hruby detail the cross-cutting trends prompting Silicon Valley venture capital funds and firms like GE, IBM, and Proctor & Gamble to make major investments in African economies, while describing how Africans are stimulating Milan runways, Hollywood studios, and London pop charts. *The Next Africa* introduces readers to the continent's burgeoning technology movement, rising entrepreneurs, groundbreaking philanthropists, and cultural innovators making an impact in music, fashion, and film. Bright and Hruby also connect Africa's transformation to its contemporary immigrant diaspora, illustrating how this increasingly affluent group will serve as the thread that pulls the continent's success together. Finally, *The Next Africa* suggests a fresh framework for global citizens, public policy-makers, and CEOs to approach Africa. It will no longer be "The Hopeless Continent", nor will it become an overnight utopia. Bright and Hruby offer a more nuanced, net-sum, and data-rich approach to analyzing an increasingly complex continent, reconciling its continued challenges with rapid progress. *The Next Africa* describes a future of a more globally-connected Africa where its leaders and citizens wield significant economic, cultural, and political power--a future in which Americans will be more likely to own African stocks, work for companies doing business in Africa, buy African hits from iTunes, see Nigerian actors win Oscars, and learn new African names connected to tech moguls and billionaires.

African Europeans Feb 24 2022 A dazzling history of Africans in Europe, revealing their unacknowledged role in shaping the continent One of the Best History Books of 2021 — Smithsonian Conventional wisdom holds that Africans are only a recent presence in Europe. But in *African Europeans*, renowned historian Olivette Otele debunks this and uncovers a long history of Europeans of African descent. From the third century, when the Egyptian Saint Maurice became the leader of a Roman legion, all the way up to the present, Otele explores encounters between those defined as "Africans" and those called "Europeans." She gives equal attention to the most prominent figures—like Alessandro de Medici, the first duke of Florence thought to have been born to a free African woman in a Roman village—and the untold stories—like the lives of dual-heritage families in Europe's coastal trading towns. *African Europeans* is a landmark celebration of this integral, vibrantly complex slice of European history, and will redefine the field for years to come.

The African Bible Jan 02 2020 The African Bible is the record of the Abyssinian prophets who came to Africa from Jerusalem in around 600 BC. The Sabeans (Nephites) and the Agazians (Lamanites) will become the ancestors of the African people. The prophecies of the African Bible have been entirely fulfilled upon Africans, Jews and Gentiles. The

Agazians or black Africans were prophesied to dwindle in unbelief as was apparent in the history of the continent. Also, black Africans were prophesied to be scourged, slaved and scattered by the Gentiles, and that was the experience of Africans. The African Bible, the Book of Mormon, was prophesied to be hidden from the African people, until God's own time, and will first be discovered by the Gentiles. Hence, the prophet Joseph Smith translated them into English from the Sabean script and the Mormon Church had them for almost two centuries without knowing the authentic owners of the records. The records were then to be revealed to the African people by one of their descendants, and that is what I am doing now. I have convincingly proven the Book of Mormon to be the record of the African ancestors and is therefore an African Bible. Hence, Africans are the remnants of the house of Israel and descendants of Manasseh.

The State of Africa Sep 29 2019 Africa is forever on our TV screens, but the bad-news stories (famine, genocide, corruption) massively outweigh the good (South Africa). Ever since the process of decolonialisation began in the mid-1950s, and arguably before, the continent has appeared to be stuck in a process of irreversible decline. Constant war, improper use of natural resources and misappropriation of revenues and aid monies contribute to an impression of a continent beyond hope. How did we get here? What, if anything, is to be done? Weaving together the key stories and characters of the last fifty years into a stunningly compelling and coherent narrative, Martin Meredith has produced the definitive history of how European ideas of how to organise 10,000 different ethnic groups has led to what Tony Blair described as the 'scar on the conscience of the world'. Authoritative, provocative and consistently fascinating, this is a major book on one of the most important issues facing the West today.

How to Write About Africa Apr 28 2022 A trailblazing collection of writing from Binyavanga Wainaina's extraordinary life 'In your text, treat Africa as if it were one country. It is hot and dusty with rolling grasslands and huge herds of animals and tall, thin people who are starving. Or it is hot and steamy with very short people who eat primates. Don't get bogged down with precise descriptions.' Binyavanga Wainaina was a seminal author and activist, remembered as one of the greatest chroniclers of contemporary African life. After his death in 2019, this ground-breaking collection brings together his pioneering writing on the African continent for the first time. A rule-breaker full of wry satire and piercing wisdom, this collection includes many of Binyavanga's most critically acclaimed pieces, including the viral satirical sensation *How to Write About Africa*. I Am a Girl from Africa Mar 28 2022 A “profound and soul-nourishing memoir” (Oprah Daily) from an African girl whose near-death experience sparked a lifelong dedication to humanitarian work that helps bring change across the world. When severe drought hit her village in Zimbabwe, Elizabeth Nyamayaro, then only eight, had no idea that this moment of utter devastation would come to define her life’s purpose. Unable to move from hunger and malnourishment, she encountered a United Nations aid worker who gave her a bowl of warm porridge and saved her life—a transformative moment that inspired Elizabeth to dedicate herself to giving back to her community, her continent, and the world. In the decades that have followed, Elizabeth has been instrumental in creating change and uplifting the lives of others: by fighting global inequalities, advancing social justice for vulnerable communities, and challenging the status quo to accelerate women’s rights around the world. She has served as a senior advisor at the United Nations, where she launched HeForShe, one of the world’s largest global solidarity movements for gender equality. In *I Am a Girl from Africa*, she charts this “journey of perseverance” (Entertainment Weekly) from her small village of Goromonzi to Harare, Zimbabwe; London; New York; and beyond, always grounded by the African concept of ubuntu—“I am because we are”—taught to her by her beloved grandmother. This “victorious” (The New York Times Book Review) memoir brings to vivid life one extraordinary woman’s story of persevering through incredible odds and finding her true calling—while delivering an important message of hope, empowerment, community support, and interdependence.

Africa and Africans in the Making of the Atlantic World, 1400–1800 Apr 04 2020 This book explores Africa's involvement in the Atlantic world from the fifteenth century to the eighteenth century. It focuses especially on the causes and consequences of the slave trade, in Africa, in Europe, and in the New World. African institutions, political events, and economic structures shaped Africa's voluntary involvement in the Atlantic arena before 1680. Africa's economic and military strength gave African elites the capacity to determine how trade with Europe developed. Thornton examines the dynamics of colonization which made slaves so necessary to European colonizers, and he explains why African slaves were placed in roles of central significance. Estate structure and demography affected the capacity of slaves to form a self-sustaining society and behave as cultural actors, transferring and transforming African culture in the New World.

The History of Africa May 18 2021 There is a paradox about Africa: it remains a subject that attracts considerable attention yet rarely is there a full appreciation of its complexity. African historiography has typically consisted of writing Africa for Europe—instead of writing Africa for itself, as itself, from its own perspectives. *The History of Africa* redresses this by letting the perspectives of Africans themselves take center stage. Authoritative and comprehensive, this book provides a wide-ranging history of Africa from earliest prehistory to the present day—using the cultural, social, political, and economic lenses of Africa as instruments to illuminate the ordinary lives of Africans. The result is a fresh survey that includes a wealth of indigenous ideas, African concepts, and traditional outlooks that have escaped the writing of African history in the West. The new edition includes information on the Arab Spring, the rise of FrancAfrica, the presence of the Chinese in Africa, and the birth of South Sudan. The chapters go up to the present day, addressing US President Barack Obama's policies toward Africa. A new companion website provides students and scholars of Africa with access to a wealth of supporting resources for each chapter, including images, video and audio clips, and links to sites for further research. This straightforward, illustrated, and factual text allows the reader to access the major developments, personalities, and events on the African continent. This groundbreaking survey is an indispensable guide to African history.

Of Africa Jan 26 2022 A member of the unique generation of African writers and intellectuals who came of age in the last days of colonialism, Wole Soyinka has witnessed the promise of independence and lived through postcolonial failure. He deeply comprehends the pressing problems of Africa, and, an irrepressible essayist and a staunch critic of the oppressive boot, he unhesitatingly speaks out. In this magnificent new work, Soyinka offers a wide-ranging inquiry into Africa's culture, religion, history, imagination, and identity. He seeks to understand how the continent's history is entwined with the histories of others, while exploring Africa's truest assets: "its humanity, the quality and valuation of its own existence, and modes of managing its environment—both physical and intangible (which includes the spiritual)." Fully grasping the extent of Africa's most challenging issues, Soyinka nevertheless refuses defeatism. With eloquence he analyzes problems ranging from the meaning of the past to the threat of theocracy. He asks hard questions about racial attitudes, inter-ethnic and religious violence, the viability of nations whose boundaries were laid out by outsiders, African identity on the continent and among displaced Africans, and more. Soyinka's exploration of Africa relocates the continent in the reader's imagination and maps a course toward an African future of peace and affirmation.

Into Africa Feb 12 2021 What really happened to Dr. David Livingstone? The New York Times bestselling coauthor of *Survivor: The Ultimate Game* investigates in this thrilling account. With the utterance of a single line—"Doctor Livingstone, I presume?"—a remote meeting in the heart of Africa was transformed into one of the most famous encounters in exploration history. But the true story behind Dr. David Livingstone and journalist Henry Morton Stanley is one that has escaped telling. *Into Africa* is an extraordinarily researched

account of a thrilling adventure—defined by alarming foolishness, intense courage, and raw human achievement. In the mid-1860s, exploration had reached a plateau. The seas and continents had been mapped, the globe circumnavigated. Yet one vexing puzzle remained unsolved: what was the source of the mighty Nile river? Aiming to settle the mystery once and for all, Great Britain called upon its legendary explorer, Dr. David Livingstone, who had spent years in Africa as a missionary. In March 1866, Livingstone steered a massive expedition into the heart of Africa. In his path lay nearly impenetrable, uncharted terrain, hostile cannibals, and deadly predators. Within weeks, the explorer had vanished without a trace. Years passed with no word. While debate raged in England over whether Livingstone could be found—or rescued—from a place as daunting as Africa, James Gordon Bennett, Jr., the brash American newspaper tycoon, hatched a plan to capitalize on the world’s fascination with the missing legend. He would send a young journalist, Henry Morton Stanley, into Africa to search for Livingstone. A drifter with great ambition, but little success to show for it, Stanley undertook his assignment with gusto, filing reports that would one day captivate readers and dominate the front page of the New York Herald. Tracing the amazing journeys of Livingstone and Stanley in alternating chapters, author Martin Dugard captures with breathtaking immediacy the perils and challenges these men faced. Woven into the narrative, Dugard tells an equally compelling story of the remarkable transformation that occurred over the course of nine years, as Stanley rose in power and prominence and Livingstone found himself alone and in mortal danger. The first book to draw on modern research and to explore the combination of adventure, politics, and larger-than-life personalities involved, *Into Africa* is a riveting read.

Teaching White Supremacy Feb 01 2020 A powerful exploration of the past and present arc of America’s white supremacy—from the country’s inception and Revolutionary years to its 19th century flashpoint of civil war; to the Civil Rights movement of the 1960s and today’s Black Lives Matter. “The most profoundly original cultural history in recent memory.” —Henry Louis Gates, Jr., Harvard University “Stunning, timely . . . an achievement in writing public history . . . Teaching White Supremacy should be read widely in our roiling debate over how to teach about race and slavery in classrooms.” —David W. Blight, Sterling Professor of American History, Yale University; author of the Pulitzer-prize-winning *Frederick Douglass: Prophet of Freedom* Donald Yacovone shows us the clear and damning evidence of white supremacy’s deep-seated roots in our nation’s educational system through a fascinating, in-depth examination of America’s wide assortment of texts, from primary readers to college textbooks, from popular histories to the most influential academic scholarship. Sifting through a wealth of materials from the colonial era to today, Yacovone reveals the systematic ways in which this ideology has infiltrated all aspects of American culture and how it has been at the heart of our collective national identity. Yacovone lays out the arc of America’s white supremacy from the country’s inception and Revolutionary War years to its nineteenth-century flashpoint of civil war to the civil rights movement of the 1960s and today’s Black Lives Matter. In a stunning reappraisal, the author argues that it is the North, not the South, that bears the greater responsibility for creating the dominant strain of race theory, which has been inculcated throughout the culture and in school textbooks that restricted and repressed African Americans and other minorities, even as Northerners blamed the South for its legacy of slavery, segregation, and racial injustice. A major assessment of how we got to where we are today, of how white supremacy has suffused every area of American learning, from literature and science to religion, medicine, and law, and why this kind of thinking has so insidiously endured for more than three centuries.

The African Diaspora Jun 26 2019 Patrick Manning follows the multiple routes that brought Africans and people of African descent into contact with one another and with Europe, Asia, and the Americas. In joining these stories, he shows how the waters of the Atlantic Ocean, the Mediterranean Sea, and the Indian Ocean fueled dynamic interactions among black communities and cultures and how these patterns resembled those of a number of connected diasporas concurrently taking shape across the globe. Manning begins in 1400 and traces the connections that enabled Africans to mutually identify and hold together as a global community. He tracks discourses on race, changes in economic circumstance, the evolving character of family life, and the growth of popular culture. He underscores the profound influence that the African diaspora had on world history and demonstrates the inextricable link between black migration and the rise of modernity. Inclusive and far-reaching, *The African Diaspora* proves that the advent of modernity cannot be fully understood without taking the African peoples and the African continent into account.
