Hard Times Illustrated Oct 07 2020 Hard Times - For These Times (commonly known as Hard Times) is the tenth novel by Charles Dickens, first published in 1854. The book surveys English society and satirises the social and economic conditions of the era. Hard Times is unusual in several ways. It is by far the shortest of Dickens' novels, barely a quarter of the length of those written immediately before and after it. Also, unlike all but one of his other novels, Hard Times has neither a preface nor illustrations. Moreover, it is his only novel not to have scenes set in London. Instead the story is set in the fictitious Victorian industrial Coketown, a generic Northern English mill-town, in some ways similar to Manchester, though smaller. Coketown may be partially based on 19th-century Preston.

Honoring God and the City Mar 24 2022 This is the first detailed history of musical activities at Venetian lay confraternities. Based on over two decades of research in Venetian archives, the book traces musical practices from the origins of the earliest confraternities in the mid-thirteenth century through their suppression under the French and Austrian governments of Venice in the early nineteenth century. The first section of the book treats the scuole grandi, the largest and most important of the Venetian confraternities, and the only ones to maintain musical establishments for long periods. The second portion of the book is concerned with the scuole piccole, the numerous less-important confraternities, sometimes as many as 300 of which were active simultaneously, located in churches throughout Venice. Appendices include an attempt to reconstruct a calendar of musical events at all Venetian confraternities in the early eighteenth century, demonstrating the vital role they played in the cultural and ceremonial life of this great city.

Approfondimenti teorici di cinematica - Velocità e accelerazione Jul 16 2021 Il presente volume nasce da una esperienza vissuta a scuola. L'idea di base è stata di riprendere alcuni concetti fondamentali della cinematica, come la velocità e l'accelerazione, e ridiscuterne il significato con un gruppo di studenti. Spesso, oggi, nell'insegnamento della matematica e della fisica, si tende ad una eccessiva semplificazione dei contenuti e si effettuano continui riferimenti al mondo reale, evitando di rimanere ad un livello di pura astrazione. La bellezza di tali discipline, tuttavia, risiede, anche, nella sottigliezza dei ragionamenti, nella coerenza delle teorie, nella complessità dei calcoli, nella capacità di proporre nuovi metodi di indagine. Questo libro, in netto contrasto con le linee attuali, si propone di arricchire la trattazione con definizioni e dimostrazioni, inserendo quanti più elementi necessari per una migliore comprensione. Si è pensato, inoltre, di allestire un sito online, dal quale i lettori potranno scaricare gratuitamente rielaborazioni dell'autore su argomenti di cinematica. Il volume è suddiviso in quattro capitoli nei quali differenti definizioni di velocità e accelerazione sono introdotte e applicate ad alcuni tipi di moto.

Fare e leggere e-book Oct 31 2022 Il mercato degli e-book cresce anno dopo anno, lasciando aperti molti interrogativi sia tra gli addetti ai lavori sia tra i lettori. Questo libro approfondisce tutte le problematiche legate al mondo dell'editoria digitale e rappresenta al contempo un piccolo e prezioso manuale per muoversi agilmente nel mondo degli e-book. Fare e leggere e-book spiega che cosa sono i libri digitali, come si creano, quali sono i loro formati, cosa sono gli e-book reader, come si usano, qual è il loro impatto ambientale e sociale, quali sono i vantaggi e i pericoli legati alla diffusione del digitale. "Semplice e privo di tecnicismi, questo lavoro è un piccolo passepartout utile per entrare nel vivo della trasformazione 'epocale' che stiamo vivendo". (Luigi Passerino)

The Pizzigoni Experimental Method in Sara Bertuzzi's Diaries Jan 22 2022 This study sheds new light on childhood education, and reveals Giuseppina Pizzigoni as a contemporary educator of Maria Montessori. While the former is almost unknown and the latter enjoys worldwide fame, both were protagonists of the profound changes in the Italian school system in the 20th century. Their lives developed in parallel, and both great women loved school, respected children, and believed in the strength of education. Pizzigoni's disciple Sara Bertuzzi later picked up the baton, and continued the impulse of innovation, freedom, inclusion and sustainability, faithful to the features and fundamentals of Pizzigoni's pedagogy and methodology. She became the only expert in the field of the new school, and her diaries highlight the theory and practice of the experimental method in both kindergarten and preschool.

Renaissance Art in Venice Apr 24 2022 This book examines how sustainability has the potential to transform both the fashion system and the innovators who work within it. Sustainability is arguably the defining theme of the twenty-first century. The issues in fashion are broad-ranging and include labour abuses, toxic chemicals use and conspicuous consumption, giving rise to an undeniable tension between fashion and sustainability. The book is organized in three parts. The first part is concerned with transforming fashion products across the garment's lifecycle and includes innovation in materials, manufacture, distribution, use and re-use. The second part looks at ideas that are transforming the fashion system at root into something more sustainable, including new business models that reduce material throughput. The third section is concerned with transforming the role of fashion designers and looks to examples where the designer changes from a stylist or creator into a communicator, activist or facilitator.

Art of Renaissance Florence Oct 19 2021 In this vivid account Scott Nethersole examines the remarkable period of cultural, artistic, and intellectual blossoming in Florence from 1400 to 1520—the period traditionally known as the Early and High Renaissance. He looks at the city and its art with fresh eyes, presenting the well-known within a wider context of cultural reference. Key works of art—from painting, sculpture, and architecture to illuminated manuscripts—by artists such as Michelangelo, Donatello, Botticelli, and Brunelleschi are showcased alongside the unexpected and less familiar.

Per un pugno di Fisica May 14 2021 Nel presente volume sono svolti esercizi di fisica all'interno di una storia fantastica che vede come protagonisti due studenti di Liceo. Ci sono i loro sentimenti, le loro paure, le incertezze, anche il loro odio per una materia fredda e inutile, come la definiscono. Tuttavia, è proprio il fervido mondo della loro immaginazione adolescenziale, fatto di situazioni anche reali, a far sì che si riavvicinino in modo spontaneo alla fisica e le attribuiscono quella dignità che non sono riusciti a cogliere tra i banchi di scuola.

Art of the Northern Renaissance Mar 12 2021 In this lucid account, Stephanie Porras charts the fascinating story of art in northern Europe during the Renaissance period (c.1400–1570). She explains how artists and patrons from the regions north of the Alps – the Low Countries, France, England, Germany – responded to an era of rapid political, social, economic and religious change, while redefining the status of art. Porras discusses not only paintings by artists from Jan van Eyck to Pieter Bruegel, but also sculpture, architecture, prints, metalwork, embroidery, tapestry and armour. Each chapter presents works from a roughly twenty-year period and is also focused on a broad thematic issue, such as the flourishing of the print industry or the mobility of Northern artists and art works. The author traces the influence of aristocratic courts as centres of artistic production and the rise of an urban merchant class leading to the creation of new consumers and new art products. This book offers a richly illustrated narrative that allows readers to understand the progression, variety and key conceptual developments of Northern Renaissance Art.

Sprache im italienischen Erdkundeunterricht Aug 17 2021 Die Autorin untersucht sprachliche Herausforderungen, denen Lernende am Ende der Sekundarstufe I im Fachunterricht begegnen. Ihre empirischen Daten stammen aus Schulen in Italien. Zwischen dem Sprachgebrauch der Lernenden und den in den Schulbüchern und von Lehrkräften verwendeten Registern stellt sie Diskrepanzen fest. Im Zentrum der Analysen steht der Wortschatz, und es werden weitere sprachliche Aspekte und die Rolle der Fachlehrkräfte für sprachliche Bildung erforscht.

Questioni di... relatività Jul 28 2022 Il libro propone ai lettori un'analisi fisico-matematica su tutto ciò che riguarda il tema dei moti relativi, sia dal punto di vista galileiano che dal punto di vista relativistico, anche attraverso uno studio comparato delle due teorie. Tratto caratteristico del testo è la volontà di approfondimento, si è tentato di sviscerare le teorie fin nella loro essenza utilizzando il potente linguaggio della matematica, ma anche attraverso l'approccio applicativo mediante numerosi esempi per analizzare i casi particolari, tabelle e grafici. Questo volume non ha certo la pretesa di stravolgere teorie consolidate piuttosto cercare di far appassionare le giovani menti al piacere della conoscenza intesa come volontà di intraprendere percorsi culturali per così dire fuori moda. Il volume si compone di tre capitoli: nel primo si introducono le definizioni preliminari; nel secondo si affronta lo studio dei moti relativi dal punto di vista classico dimostrando matematicamente le leggi di trasformazione e di variazione e inserendo numerosi esempi e casi particolari; nel terzo si analizza lo stesso studio dal punto di vista relativistico, anche in questo caso dimostrando matematicamente le nuove leggi del moto, confrontandole con le corrispondenti leggi della cinematica classica. A completare la trattazione analitica sono state inserite le analisi prettamente fisiche dei risultati ottenuti.

Amplified Jan 10 2021 Amplified offers a fresh, innovative way to relate to and experience music. The book shows the reader how to use the power of music in their everyday life-to awaken creativity, improve their wellbeing, deepen relationships, and amplify their true potential. Through a combination of personal stories, scientific research, inspiring anecdotes, and practical exercises, Frank Fitzpatrick provides us with a time-tested musical path to greater health and happiness. Amplified is a culmination of the author's key takeaways from more than forty years as a music entrepreneur working at the forefront of entertainment, creativity, health, and human performance. He wrote it for one purpose: to help you-the reader-better understand and apply the benefits of music in the key areas of your life and in the world in which you live.

A Bibliography on Writing and Written Language Dec 21 2021 The bibliography offers information on research about writing and written language over the past 50 years. No comprehensive bibliography on this subject has been published since Sattler's (1935) handbook. With a selection of some 27,500 titles it covers the most important literature in all scientific fields relating to writing. Emphasis has been placed on the interdisciplinary organization of the bibliography, creating many points of common interest for literacy experts, educationalists, psychologists, sociologists, linguists, cultural anthropologists, and historians. The bibliography is organized in such a way as to provide the specialist as well as the researcher in neighboring disciplines with access to the relevant literature on writing in a given field. While necessarily selective, it also offers information on more specialized bibliographies. In addition, an overview of norms and standards concerning 'script and writing' will prove very useful for non-professional readers. It is, therefore, also of interest to the generally interested public as a reference work for the humanities.

Art of Renaissance Rome Apr 12 2021 John Marciari tells the story of the monuments, artists, and patrons of Renaissance Rome in this compelling book. In no other city is the ancient world so palpably present, and nowhere else is the mission of the church so evident. At the same time as the humanists sought to preserve and recreate the ancient city, giving it a new lease on life, the popes dispensed patronage much as any other contemporary Italian ruler. Rome was also the most international of the Renaissance cities with artists and architects generally training elsewhere before arriving in the city and introducing new trends. By adopting a chronological structure, covering the period c.1300–1600, Marciari is able to explore the nature of Roman patronage as it differed from papacy to papacy. He examines the city's extraordinary works of art in the context of the working practices, competition, and rivalries that made Renaissance Rome so magnificent.

Il settore editoriale. Valutazione della performance tra ebook e tradizione cartacea Jun 14 2021 Il settore editoriale libraio,

attraverso i suoi prodotti, i libri, rappresenta da sempre un settore particolarmente interessante in quanto in esso convergono interessi più propriamente economici ma anche, se non soprattutto, l'obiettivo di diffusione della cultura. Il rispetto di parametri di gestione economica, necessità comune a qualsiasi azienda, deve sempre essere perseguito producendo "output" in grado ogni volta di apportare valore aggiunto, punti di vista diversi, il quid innovativo insomma. La capacità del settore di rinnovarsi e adattarsi ai cambiamenti della società tuttavia, è oggi fortemente messa alla prova. Nel valutare la performance di tale settore infatti, la questione non è più se l'ebook sia strumento di fruizione alternativo al libro, ma se la lettura sia considerata ancora come maggiore attività di svago in un paniere sempre più vario e imponderabile di attività. Come sarà mostrato attraverso il metodo del marchio e agli indici di bilancio, alcune case editrici, come la Mondadori, continuano ad investire sull'innovazione e ne giovano, altre più piccole, come la Ferraro, fanno i conti con la riqualificazione della catena del valore, non sempre così semplice.
