Kushner—author of *When Bad Things Happen to Good People*—addresses some of the most persistent dilemmas of the human condition: Why do decent people so often violate their moral standards? How can we pursue justice without giving in to the lure of revenge? How can we turn our relationships with family and friends into genuine sources of meaning? Persuasive and sympathetic, filled with humanity and warmth, *Living a Life That Matters* is a deeply rewarding book.

Infinite Possibilities (10th Anniversary) May 03 2020 Infinite Possibilities is the masterwork from teacher, author, and featured speaker Mike Dooley. As the next step beyond his immensely popular Notes from the Universe trilogy, and his follow up, Choose them Wisely, this book contains even more enriching wisdom for living an abundant, joyous life. Mike Dooley knows that we create our own reality, our own fate, and our own luck. We're beings filled with infinite possibility—just ready to explore how powerful we truly are. Manifesting the magnificence of our dreams isn't about hard work, but rather about belief and expectation. These principles transcend belief, realizing the truth about our human nature. Your dreams are not accidental, nor inconsequential. And if someone were tell the truth about life, reality, and the powers we all possessed, would it be recognized? Our lives are full of adventures—and not exactly the sky-diving, mountain-climbing variety—but something better. Readers will laugh, applaud, and be inspired by Mike Dooley's wit and wisdom.

On Living Mar 13 2021 "A poetic and philosophical and brave and uplifting meditation on how important it is to make peace and meaning of our lives while we still have them." –Elizabeth Gilbert, bestselling author of Eat Pray Love "Illuminating, unflinching and ultimately inspiring... A book to treasure." –People Magazine A hospice chaplain passes on wisdom on giving meaning to life, from those taking leave of it. As a hospice chaplain, Kerry Egan didn't offer sermons or prayers, unless they were requested; in fact, she found, the dying rarely want to talk about God, at least not overtly. Instead, she discovered she'd been granted a powerful chance to witness firsthand what she calls the "spiritual work of dying"—the work of finding or making meaning of one's life, the experiences it's contained and the people who have touched it, the betrayals, wounds, unfinished business, and unrealized dreams. Instead of talking, she mainly listened: to stories of hope and regret, shame and pride, mystery

and revelation and secrets held too long. Most of all, though, she listened as her patients talked about love—love for their children and partners and friends; love they didn't know how to offer; love they gave unconditionally; love they, sometimes belatedly, learned to grant themselves. This isn't a book about dying—it's a book about living. And Egan isn't just passively bearing witness to these stories. An emergency procedure during the birth of her first child left her physically whole but emotionally and spiritually adrift. Her work as a hospice chaplain healed her, from a brokenness she came to see we all share. Each of her patients taught her something about what matters in the end—how to find courage in the face of fear or the strength to make amends; how to be profoundly compassionate and fiercely empathetic; how to see the world in grays instead of black and white. In this hopeful, moving, and beautiful book, she passes along all their precious and necessary gifts.

The Blue Zones Solution Jan 29 2020 Bestselling author Dan Buettner reveals how to transform your health using smart nutrition, lifestyle, and fitness habits gleaned from longevity research on the diets, eating habits, and lifestyle practices of the communities he's identified as "Blue Zones"—those places with the world's longest-lived, and thus healthiest, people, including locations such as Okinawa, Japan; Sardinia, Italy; Costa Rica's Nicoya Peninsula; Ikaria, Greece; and Loma Linda, California. With the audacious belief that the lifestyles of the world's Blue Zones could be adapted and replicated in towns across North America, Buettner launched the largest preventive health care project in the United States, The Blue Zones City Makeovers, which has impacted the health of millions of Americans since 2009. In *The Blue Zones Solution*, readers can be inspired by the specific stories of the people, foods, and routines of our healthy elders; understand the role community, family, and naturally healthy habits can play in improving our diet and health; and learn the exact foods—including the 50 superfoods of longevity and dozens of recipes adapted for Western tastes and markets—that offer delicious ways to eat your way to optimum health. A New York Times Notable Book A New York Public Library Best Nonfiction Book of 2018 What does it cost a woman to unsettle old boundaries and collapse the social hierarchies that make her a minor character in a world not arranged to her advantage? This vibrant memoir, a portrait of contemporary womanhood in flux, is an urgent quest to find an unwritten major female character who can exist more easily in the world. Levy considers what it means to live with meaning, value, and pleasure, to seize the ultimate freedom of writing our own lives, and reflects on the work of such artists and thinkers as Simone de Beauvoir, James Baldwin, Elena Ferrante, Marguerite Duras, David Lynch, and Emily Dickinson. *The Cost of Living*, longlisted for the Andrew Carnegie Medal in Nonfiction, is crucial testimony, as distinctive, witty, complex, and original as Levy's acclaimed novels.
