Sour Sep 05 2020 SOMETHING EVIL ROSE WITHIN, AN ANCIENT BEING, ONE OLDER THAN TIME ITSELF... Deep in the mountains of Appalachia, a legend is told about something evil that lurks within the dense woods of Gunrack Holler. A witch is said to live there, one whose appetite for innocent souls dates back hundreds of years. Sam Fletcher had heard the story his whole life, but he never really believed it. After all, as his father always said, it's just an old folktale... only a story. But two years ago, something happened that made him believe.

Mrs. Martin's Incomparable Adventure Mar 31 2020 Mrs. Bertrice Martin—a widow, some seventy-three years young—has kept her youthful-ish appearance with the most powerful of home remedies: daily doses of spite, regular baths in man-tears, and refusing to give

so much as a single damn about her Terrible Nephew. Then proper, correct Miss Violetta Beauchamps, a sprightly young thing of nine and sixty, crashes into her life. The Terrible Nephew is living in her rooming house, and Violetta wants him gone. Mrs. Martin isn't about to start giving damns, not even for someone as intriguing as Miss Violetta. But she hatches another plan—to make her nephew sorry, to make Miss Violetta smile, and to have the finest adventure of all time. If she makes Terrible Men angry and wins the hand of a lovely lady in the process? Those are just added bonuses. Author's Note: Sometimes I write villains who are subtle and nuanced. This is not one of those times. The Terrible Nephew is terrible, and terrible things happen to him because he deserves them. Sometime villains really are bad and wrong, and sometimes, we want them to suffer a lot of consequences.

Technology in Action, Complete Oct 31 2022 In today's technological age, computer literacy is important for everyone, and now learning the basics is easier than ever. This title engages students by combining a unique teaching approach with rich companion media.

Algeria Nov 19 2021 After liberating itself from French colonial rule in one of the twentieth century's most brutal wars of independence, Algeria became a standard-bearer for the non-aligned movement. By the 1990s, however, its revolutionary political model had collapsed, degenerating into a savage conflict between the military and Islamist guerillas that killed some 200,000 citizens. In this lucid and gripping account, Martin Evans and John Phillips explore Algeria's recent and very bloody history, demonstrating how the high hopes of independence turned into anger as young Algerians grew increasingly alienated. Unemployed, frustrated by the corrupt military regime, and excluded by the West, the post-independence generation needed new heroes, and some found them in Osama bin Laden and the rising Islamist movement. Evans and Phillips trace the complex roots of this alienation, arguing that Algeria's predicament-political instability, pressing economic and social problems, bad governance, a disenfranchised youth-is emblematic of an arc of insecurity stretching from Morocco to Indonesia. Looking back at the pre-colonial and colonial periods, they place Algeria's complex present into historical context, demonstrating how successive governments have manipulated the past for their own ends. The result is a fractured society with a complicated and bitter relationship with the Western powers-and an increasing tendency to export terrorism to France, America, and beyond.

Domain-Driven Design Quickly Oct 07 2020 Domain Driven Design is a vision and approach for dealing with highly complex domains that is based on making the domain itself the main focus of the project, and maintaining a software model that reflects a deep understanding of the domain. This book is a short, quickly-readable summary and introduction to the fundamentals of DDD; it does not introduce any new concepts; it attempts to concisely summarize the essence of what DDD is, drawing mostly Eric Evans' original book, as well other sources since published such as Jimmy Nilsson's Applying Domain Driven Design, and various DDD discussion forums. The main topics covered in the book include: Building Domain Knowledge, The Ubiquitous Language, Model Driven Design, Refactoring Toward Deeper Insight, and Preserving Model Integrity. Also included is an interview with Eric Evans on Domain Driven Design today.

A Place For Us Nov 27 2019 Major international bestseller and critically acclaimed author Harriet Evans weaves an "absorbing tapestry...with a comic touch even in the midst of tragedy" (Kirkus Reviews) in this stunning family drama that will surprise you at every turn. When Martha, a wife and mother of three, sits down one late summer's morning to write out the invitations to her eightieth birthday celebration, she knows that what she is planning to reveal at the party could ruin the idyllic life she and her husband, David, have spent more than fifty years building. But her family must know what she and David have sacrificed. She cannot live a lie anymore. The invitation goes out far and wide, calling her children and grandchildren back home to Winterfold, their rambling house in the heart of the English countryside. Bill, a doctor, was once a sweet, serious boy, eager to help his mother, but he's not the man Martha thought he'd become. Florence—passionate, intellectual, one might say a little eccentric—is now an art history professor in Italy. And Daisy, the dark heart of the family, left years ago to be a charity worker abroad and never really came home. The reunion becomes a catalyst for a cascade of shocking secrets and unexpected events as the Winters grapple with the joy and the pain of the past.

The Nervous System Jun 14 2021 The nervous system allows us to move, feel, and think. This title discusses the development and organisation of the nervous system, its functions, and what complications might arise when it is injured.

The Elevator Family May 14 2021 WHAT'S THE STRANGEST HOTEL ROOM YOU'VE EVER STAYED IN? WHATEVER IT IS, THE WILSON FAMILY CAN TOP IT. BECAUSE FOR THREE DAYS, THEY LIVE IN AN ELEVATOR. For the Wilson family, only the best will do! So when they arrive at the San Francisco Hotel and discover that there are no available rooms, they decide to stay in the place that suits them best of all: a room that has its ups . . . and its downs—a room called Otis, the hotel elevator. Staying in the elevator is absolutely "fantabulous!" After all, where else would Mr. Walter Wilson, Mrs. Winona Wilson, 10-year-old Winslow Wilson, and his twin sister, Whitney Wilson get to meet: · A weary traveling salesman of kids' fads · A British rock group with a funny name · A lovesick bellhop · A society lady and her pampered poodle · And a slew of other surprising visitors! For fans of middle-grade giants like Andrew Clements, Jerry Spinelli, Louis Sachar, and Judy Blume, The Elevator Family is a funny and heartwarming story about an eccentric family who'll be remembered long after they check out of Otis. Drop in on them for an elevator ride filled with adventure and zany humor!

I Will Always Write Back Jun 22 2019 The New York Times bestselling true story of an all-American girl and a boy from Zimbabwe -- and the letter that changed both of their lives forever. It started as an assignment. Everyone in Caitlin's class wrote to an unknown student somewhere in a distant place. Martin was lucky to even receive a pen-pal letter. There were only ten letters, and fifty kids in his class. But he was the top student, so he got the first one. That letter was the beginning of a correspondence that spanned six years and changed two lives. In this compelling dual memoir, Caitlin and Martin recount how they became best friends--and better people--through their long-distance exchange. Their story will inspire you to look beyond your own life and wonder about the world at large and your place in it.

Fowler Mar 24 2022 The practice of enterprise application development has benefited from the emergence of many new enabling technologies. Multi-tiered object-oriented platforms, such as Java and .NET, have become commonplace. These new tools and technologies are capable of building powerful applications, but they are not easily implemented. Common failures in enterprise applications often occur because their developers do not understand the architectural lessons that experienced object developers have learned. Patterns of Enterprise Application Architecture is written in direct response to the stiff challenges that face enterprise application developers. The author, noted object-oriented designer Martin Fowler, noticed that despite changes in technology--from Smalltalk to CORBA to Java to .NET--the same basic design ideas can be adapted and applied to solve common problems. With the help of an expert group of contributors, Martin distills over forty recurring solutions into patterns. The result is an indispensable handbook of solutions that are applicable to any enterprise application platform. This book is actually two books in one. The first section is a short tutorial on developing enterprise applications, which you can read from start to finish to understand the scope of the book's lessons. The next section, the bulk of the book, is a detailed reference to the patterns themselves. Each pattern provides usage and implementation information, as well as detailed code examples in Java or C#. The entire book is also richly illustrated with UML diagrams to further explain the concepts. Armed with this book, you will have the knowledge necessary to make important architectural decisions about building an enterprise application and the proven patterns for use when building them. The topics covered include · Dividing an enterprise application into layers · The major approaches to organizing business logic · An in-depth treatment of mapping between objects and relational databases · Using Model-View-Controller to organize a Web presentation · Handling concurrency for data that spans multiple transactions · Designing distributed object interfaces

We March Jan 22 2022 On August 28, 1963, a remarkable event took place--more than 250,000 people gathered in our nation's capital to participate in the March on Washington for Jobs and Freedom. The march began at the Washington Monument and ended with a rally at the Lincoln Memorial, where Martin Luther King Jr. delivered his historic "I Have a Dream" speech, advocating racial harmony. Many words have been written about that day, but few so delicate and powerful as those presented here by award-winning author and illustrator Shane W. Evans. When combined with his simple yet compelling illustrations, the thrill of the day is brought to life for even the youngest reader to experience. *We March* is one of Kirkus Reviews' Best Children's Books of 2012

His mother long gone, his father recently deceased, and the family farm foreclosed upon by the bank, Emmett's intention is to pick up his eight-year-old brother, Billy, and head to California where they can start their lives anew. But when the warden drives away, Emmett discovers that two friends from the work farm have hidden themselves in the trunk of the warden's car. Together, they have hatched an altogether different plan for Emmett's future, one that will take them all on a fateful journey in the opposite direction—to the City of New York. Spanning just ten days and told from multiple points of view, Towles's third novel will satisfy fans of his multi-layered literary styling while providing them an array of new and richly imagined settings, characters, and themes.

From Para to Dakar Aug 24 2019 "I've realised that when things are really tough and there seems no hope for the future, it's sometimes just Chapter One of a really cool story, and the ending is entirely up to you."Joey Evans has always loved bikes, from his first second-hand Raleigh Strika at the age of six to the powerful off-road machines that became his passion later on in his life. His dream was one day to ride the most gruelling off-road race in the world, the 9000km Dakar Rally. In 2007 his dream was shattered when he broke his back in a racing accident. His spinal cord was crushed, leaving him paralysed from just below his chest. Doctors gave him a 10 per cent chance of ever walking again. Many would have given up and become resigned to life in a wheelchair, but not Joey Evans. Not only would he get back on his feet and walk, but he would also keep his Dakar dream alive. It was a long and painful road to recovery, involving years of intensive rehabilitation and training, but he had the love and support of both family and friends and an incredible amount of determination. Joey shares the many challenges he and his family faced, relating the setbacks, as well as successes, along the way to the Dakar start line. But the start line was only the first goal. His sights were set on reaching the finish line, which he did in 2017, the only South African to do so. *From Para to Dakar* is so much more than the story of one man reaching the Dakar finish line. It is a story of friendship and respect, compassion and kindness. It is about defying the odds to reach a dream, it is about grit, endurance and raw courage, and it is inspiring in its true heroism.

Learned Optimism May 02 2020 From the bestselling author of *Authentic Happiness* Known as the father of the science of positive psychology, Martin E.P. Seligman draws on more than twenty years of clinical research to demonstrate how optimism enhances the quality of life, and how anyone can learn to practice it. Offering many simple techniques, Dr. Seligman explains how to break an 'I give up' habit, develop a more constructive explanatory style for interpreting your behaviour, and experience the benefits of a more positive interior dialogue. These skills can help break up depression, boost your immune system, better develop your potential, and make you happier. With generous additional advice on how to encourage optimistic behaviour at school, at work and in children, *Learned Optimism* is both profound and practical, making it highly valuable for every phase of life.

The Fourth Industrial Revolution Jul 04 2020 World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart

thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine "smart factories" in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

Double-edged Diplomacy Jan 10 2021 This original look at the dynamics of international relations untangles the vigorous interaction of domestic and international politics on subjects as diverse as nuclear disarmament, human rights, and trade. An eminent group of political scientists demonstrates how international bargaining that reflects domestic political agendas can be undone when it ignores the influence of domestic constituencies. The eleven studies in "Double-Edged Diplomacy" provide a major step in furthering a more complete understanding of how politics "between" nations affects politics "within" nations and vice versa. The result is a striking new paradigm for comprehending world events at a time when the global and the domestic are becoming ever more linked.
