She Reads Truth May 14 2021 She wants faith, hope, and love. She wants help and healing. She wants to hear and be heard, to see and be seen. She wants things set right. She wants to know what is true—not partly true, or sometimes true, or almost true. She wants to see Truth itself, face-to-face. But here, now, these things are all cloudy. Hope is tinged with hurt. Faith is shaded by doubt. Lesser, broken things masquerade as love. How does she find something permanent when the world around her is always changing, when not even she can stay the same? And if she finds it, how does she hold on? She Reads Truth tells the stories of two women who discovered, through very different lives and circumstances, that only God and His Word remain unchanged as the world around them shifted and slipped away. Infused with biblical application and Scripture, this book is not just about two characters in two stories, but about one Hero and one Story. Every image points to the bigger picture—that God and His Word are true. Not because of anything we do, but because of who He is. Not once, not occasionally, but right now and all the time. Sometimes it takes everything moving to notice the thing that doesn't move. Sometimes it takes telling two very different stories to notice how the Truth was exactly the same in both of them. For anyone searching for a solid foundation to cling to, She Reads Truth is a rich and honest Bible-filled journey to finally find permanent in a world that's passing away.

Beauty and the Beast Dec 09 2020 "Beauty and the Beast: California Wildflowers and Climate Change" is a 12 x 12" beautifully illustrated and designed 264 page coffee table book created by conservation photographers Rob Badger and Nita Winter. Illustrations: 190 stunning images of California's diverse wildflowers and their habitats, from high mountain passes in the Sierra Nevada mountains to below sea level in Death Valley National Park. Essays: Sixteen talented and diverse authors and scientists, most of whom are women, wrote 18 storytelling style essays (1,200 to 1,800 words) about nature, conservation, climate change or taking action. The two younger authors write about hope and action, and what people can do to help create positive change. The book has three sections: The Gift of Beauty, The Human Connection and Ensuring the Future. Because people are constantly hearing about all the negative things going on in the world, Nita and Rob believed there was a need for a different, softer approach to grab people's attention and center it on the climate-change story, and conservation and population issues. They engage their audiences by first inviting them to experience the splendor of the natural world through a universal symbol of beauty, the wildflower, and then educate and inspire them to take some of the simple actions they provide to create positive change and a healthier planet. Their goal is to spread conservation and climate change ideas far beyond native plant and nature lovers, and to plant the seeds to foster action. "Beauty and the Beast" is a 27 year photographic journey into the public lands of California. Lands we all own, lands under constant threat of development or resource extraction, impacts of global warming, sea level rise and wildfires. This book is as much a treasure as the flowers and creatures which are featured within its pages. Nita and Rob extend a hand to you to come in and take a long, slow look around and see what they have seen, experienced and have learned. Book includes two comprehensive indexes and a glossary. Co-published by WinterBadger Press and the California Native Plant Society
