The EU, Migration and the Politics of Administrative Detention Jun 26 2022 Migration is now regarded as a security issue, both in public debate and government policies. In turn, the phenomenon of detention as a governance practice has emerged, and the developing presence of camps in Europe for migrants has given rise to a tangle of new and complex issues. This book examines the phenomenon of irregular immigration, and provides a comprehensive picture of the practices and the implications of detention of migrants within and the European Union. It analyses 'detention' as a tool of governance and in doing so explores several key themes: the security threat for Europe the security governance processes enacted to handle irregular immigration the forms of detention in different geographical contexts the effectiveness of the EU's approach to the issue. The EU, Migration and the Politics of Administrative Detention will be of interest to students and scholars of the EU's external relations, migration, human rights, European politics and security studies.

La Chiesa e lo sterminio degli ebrei Aug 29 2022 Discusses the public attitude of the Catholic Church and the Vatican toward the Holocaust. Focuses on the connection between Catholicism and antisemitism on the eve of the Holocaust and the Vatican's political relations with the Third Reich. Asserts that Pope Pius XII's silence concerning the Holocaust was a result of traditional Catholic anti-Judaism and the Church's political antisemitism, which identified Judaism with Masonry, laicism, and liberalism. Concludes that these factors delayed the awareness of the Catholic Church and the Vatican regarding the new dimension of racism and antisemitism represented by Nazi ideology.

Il nazional-socialismo e lo sterminio degli ebrei Apr 24 2022 A didactic survey of Nazi antisemitism and the Holocaust, including documents, notes, and a bibliography, intended for students. Discusses Hitler's "Mein Kampf," Nazi racist and antisemitic ideology, the racial laws in Germany and in Italy, the Nazi implementation of the Final Solution (ghettos and the concentration camp system), and recent historiography on these events. Ch. 6 (pp. 149-169), "Il fascismo e gli ebrei, 1919-1945," analyzes the fascist attitude towards the Jews (e.g. Mussolini, Preziosi, Farinacci) and the implementation of the racial laws in Italy under the slogan "discriminate but do not persecute," very different from the situation in Germany.

I ventenni e lo sterminio degli ebrei Jun 22 2019 A survey was carried out among 200 students in a history course at the Faculty of Letters of the University of Torino in 1999 measuring the extent of knowledge of the students about the Shoah. The survey consisted of 30 questions. The students' responses are presented verbatim, without analysis or conclusions; this was done deliberately, with the intention of stimulating discussion. Pp. 137-143 present bibliographical notes by Bruno Maida. Pp. 145-150 contain an article by Sonia Brunetti Luzzati and Fabio Levi reflecting on different aspects of teaching the Holocaust.

Italian Fascism and Spanish Falangism in Comparison Jan 28 2020 This book compares the Italian Fascist and the Spanish Falangist political cultures from the early 1930s to the early 1940s, using the idea of the nation as the focus of the comparison. It argues that the discourse on the nation represented a common denominator between these two manifestations of the fascist phenomenon in Mussolini's Italy and Franco's Spain. Exploring the similarities and differences between these two political cultures, this study investigates how Fascist and Falangist ideologues defined and developed their own idea of the nation over time to legitimise their power within their respective countries. It examines to what extent their concept of the nation influenced Italian and Spanish domestic and foreign policies. The book offers a four-level framework for understanding the evolution of the fascist idea of the nation: the ideology of the nation, the imperial projects of Fascism and Falangism, race and the nation, and the place of these cultures in the new Nazi continental order. In doing so, it shows how these ideas of the nation had significant repercussions on fascist political practice.

Religious Life Or Secular Institute Sep 17 2021 Many request have been made for the publication of these studies in book form. Much of this material has already appeared as articles in The Way. In the first section I discuss the distinction between the forms of consecrated life, following a classification which is also taken up by the Second Vatican Council in its decree Perfectae Caritatis. It is by distinguishing between these different ways of the Spirit, and by seeking to enter more deeply into them, that all who lead that life - whether they be monks or nuns, or religious dedicated to the apostolate of the priestly ministry or of charitable works, or those leading a consecrated life in the midst of the world - will gain a better understanding of their vocation and of their special mission in the Church. The second study is an attempt to express the profound meaning of the secular vocation proper to those institutes which were approved by Pope Pius XII in 1947, and of which the Motu Proprio Primo Feliciter laid down the essential characteristics. The third section is a discussion of the role of the priest in approved Secular Institutes. This has relevance today, when special questions arise concerning those Institutes whose secular character is less apparent, who live in community and are occupied in their own special works. In the opinion of many who follow the fully secular vocation, those Institutes would do better to revise their statutes or to choose another denomination - for example, that of Apostolic Institute or Society.

Forging Shoah Memories Mar 24 2022 Despite an outpouring in recent years of history and cultural criticism related to the Holocaust, Italian women's literary representations and testimonies have not received their proper due. This project fills this gap by analyzing Italian women's writing from a variety of genres, all set against a complex historical backdrop.

Faith and Fascism Dec 29 2019 This is a study of the Federazione Universitaria Cattolica Italiana (FUCI) between 1925 and 1943, the organisation of Catholic Action for the university sector. The FUCI is highly significant to the study of Catholic politics and intellectual ideas, as a large proportion of the future Christian Democrats who ruled the country after World War II were formed within the ranks of the federation. In broader terms, this is a contribution to the historiography of Fascist Italy and of Catholic politics and mentalities in Europe in the mid- twentieth century. It sets out to prove the fundamental ideological, political, social and cultural influences of Catholicism on the making of modern Italy and how it was inextricably linked to more secular forces in the shaping of the nation and the challenges faced by an emerging mass society. Furthermore, the book explores the influence exercised by Catholicism on European attitudes towards modernisation and modernity, and how Catholicism has often led the way in the search for a religious alternative modernity that could countervail the perceived deleterious effects of the Western liberal version of modernity.

Histories, Myths and Decolonial Interventions Jul 04 2020 This book explores postcolonial myths and histories within colonially structured narratives which persist and are carried in culture, language and history in various parts of the world. It analyses constructions of identities, stereotypes and mythical fantasies in post-colonial society. Exploring a wide range of themes including the appropriation and use of language, myths of decolonialization and nationalism and the colonial influence on systems of academic knowledge, the book focuses on how these myths reinforce, subvert and appropriate colonial binaries for the articulation of the post-colonial self. With essays which study narratives of emigrants in Argentina, the colonial mythology in the Dodecanese in Italy, and

the mythico-narratives of island insularity in contemporary Sri Lanka among others, this volume emphasizes the role of indigenous studies in building a postcolonial consciousness. This book will be of interest to scholars and researchers of post-colonial studies, cultural studies, literature, history, political science and sociology.

Sopra la questione italiana. Studj Oct 07 2020

The Fascist Party and Popular Opinion in Mussolini's Italy Jun 14 2021 The question of how ordinary people related to totalitarian regimes is still far from being answered. The tension between repression and consensus makes analysis difficult; where one ends and the other begins is never easy to determine. In the case of fascist Italy, recent scholarship has tended to tilt the balance in favour of popular consensus for the regime, identifying in the novel ideological and cultural aspects of Mussolini's rule a 'political religion' which bound the population to the fascist leader. The Party and the People presents a different picture. While not underestimating the force of ideological factors, Paul Corner argues that 'real existing Fascism', as lived by a large part of the population, was in fact an increasingly negative experience and reflected few of those colourful and attractive features of fascist propaganda which have induced more favourable interpretations of the regime. Distinguishing clearly between the fascist project and its realisation, Corner examines the ways in which the fascist party asserted itself at the local level in the widely-differing areas of Italy, at its corruption and malfunctioning, and at the mounting wave of popular resentment against it during the course of the 1930s - resentment and hostility which, in effect, signalled the failure of the project. The Party and the People, based largely on unpublished archival material, concludes by suggesting that the abuse of power by fascists mirrors much wider problems in Italy related to the relationship between the public and the private and to the modes of utilisation of power, both in the past and in the present.

STORIA E COMUNICAZIONE 8NCONSCIA Jul 28 2022

Gli anni dello sterminio Feb 20 2022 Un capolavoro della ricerca storica Premio Pulitzer 2008 Gli anni dello sterminio porta a compimento uno dei maggiori sforzi compiuti da uno storico contemporaneo per ricostruire e comprendere l'evento chiave del Novecento: la persecuzione e lo sterminio di milioni di ebrei nell'Europa occupata dai nazisti. Per portare a termine il loro piano, i tedeschi avevano bisogno della collaborazione delle autorità locali e dei vari corpi di polizia e della passività delle popolazioni, a cominciare dalle élite politiche e spirituali. Ma era necessaria anche la disponibilità a obbedire agli ordini da parte delle vittime, che così speravano spesso di veder alleviate le loro sofferenze o di sopravvivere abbastanza a lungo da ottenere un visto per sfuggire agli aguzzini. Saul Friedländer studia la macchina nazista ai suoi diversi livelli e nei diversi paesi: ci permette finalmente di capire la scala, la complessità e l'interdipendenza dei vari fattori che resero possibile lo sterminio. Il materiale esaminato è enorme: non solo documenti ufficiali, ma anche diari, lettere e memorialistica. Questa poderosa sintesi non addomestica la memoria dell'orrore, ma ci restituisce una terribile pagina di storia in tutte le sue sfaccettature, erigendo un autentico monumento alle sue vittime. L'opera di Friedländer – lo sforzo dell'intera vita di un grande studioso – rappresenta una svolta nella storiografia del Novecento: grazie a lui disponiamo finalmente della ricostruzione definitiva dell'Olocausto.
